February 14, 2020

The Honorable Rodney E. Hood, Chairman  
The Honorable J. Mark McWatters, Board Member  
The Honorable Todd M. Harper, Board Member  
National Credit Union Administration  
1775 Duke Street  
Alexandria, Virginia 22314

Dear Chairman Hood and Board Members McWatters and Harper:

I am pleased to transmit KPMG LLP's (KPMG) report on its financial statement audit of the National Credit Union Administration's (NCUA) financial statements, which includes the Share Insurance Fund, the Operating Fund, the Central Liquidity Facility, and the Community Development Revolving Loan Fund, as of and for the years ending December 31, 2019 and 2018. The NCUA prepared financial statements in accordance with the Office of Management and Budget (OMB) Circular No. A-136 Revised, *Financial Reporting Requirements*, and subjected them to audit.

Under a contract monitored by the NCUA OIG, KPMG, an independent certified public accounting firm, performed an audit of NCUA's financial statements as of December 31, 2019. The contract required that the audit be performed in accordance with generally accepted government auditing standards issued by the Comptroller General of the United States, Office of Management and Budget audit guidance, and the *Government Accountability Office/President's Council on Integrity and Efficiency Financial Audit Manual*.

KPMG's audit report for 2019 includes: (1) an opinion on the financial statements, (2) conclusions on internal control over financial reporting, and (3) a section addressing compliance and other matters. In its audit of the NCUA, KPMG found:

- The financial statements were fairly presented, in all material respects, in conformity with U.S. generally accepted accounting principles;
- There were no material weaknesses in internal controls;<sup>1</sup>
- There were no significant deficiencies related to internal controls;<sup>2</sup> and
- No instances of reportable noncompliance with laws and regulations it tested or other matters that are required to be reported under Government Auditing Standards or OMB guidance.

---

<sup>1</sup> A material weakness is defined as a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

<sup>2</sup> A significant deficiency is defined as a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

The Honorable Rodney E. Hood, Chairman  
The Honorable J. Mark McWatters, Board Member  
The Honorable Todd M. Harper, Board Member  
February 14, 2020  
Page 2

To ensure the quality of the audit work performed, we reviewed KPMG's approach and planning of the audit, evaluated the qualifications and independence of the auditors, monitored the progress of the audit at key points, and reviewed and accepted KPMG's reports and related documentation and inquired of its representatives. Our review, as differentiated from an audit in accordance with U.S. generally accepted government auditing standards, was not intended to enable us to express, and we do not express, opinions on the NCUA's financial statements or conclusions about the effectiveness of internal control or conclusions on compliance with laws and regulations. KPMG is responsible for the attached auditor's reports dated February 14, 2020, and the conclusions expressed in the reports. However, our review disclosed no instances where KPMG did not comply, in all material respects, with generally accepted government auditing standards.

We would like to extend our thanks to NCUA management and staff involved in issuing the financial statements within the established milestones. In addition, we appreciate the professionalism, courtesies, and cooperation extended to KPMG throughout the audit and our oversight of the audit process.

### **The Inspector General's Statement on the NCUA's Management and Performance Challenges,**

The Inspector General is required by law<sup>3</sup> to provide a summary statement on management and performance challenges facing the agency. Below is a brief overview of the NCUA's organizational structure, its mission, and vision, as well as what I believe are the key challenges to agency management in the coming year.

#### Organizational Structure

Created by Congress, the NCUA is an independent federal agency with the unique role of insuring deposits at all federal and most state-chartered credit unions, protecting the members who own credit unions, and regulating federally chartered credit unions. A three member politically appointed Board oversees the NCUA's operations by setting policy, approving budgets, and adopting rules. As of December 31, 2019, over 120 million members have \$1.2 trillion in insured deposits at approximately 5,247 federally insured credit unions. These credit unions have approximately \$1.6 trillion in assets.

#### Agency Mission and Vision

Throughout 2020, the NCUA will implement initiatives to continue meeting its mission to "provide, through regulation and supervision, a safe and sound credit union system which promotes confidence in the national system of cooperative credit," and its vision to ensure that the "NCUA will protect consumer rights and member deposits."

---

## **Agency Challenges**

In deciding whether to identify an issue as a challenge, we consider its significance in relation to the NCUA's mission; its susceptibility to fraud, waste, and abuse; and the NCUA's progress in addressing the challenge. We compiled the attached statement on the basis of our past and ongoing audit, evaluation, investigation, and review work; our knowledge of the NCUA's programs and operations; and information from the U.S. Government Accountability Office and NCUA management and staff.

We also consider the economic environment as a key determinant of credit union performance and for the last several years, the economy has supported solid performance of the credit union system. However, the NCUA will continue to face several risks that threaten the safety and soundness of the system and the Share Insurance Fund, as well as a number of complex challenges that could potentially impact its operations in the future. As a result, the NCUA must remain diligent in its supervisory efforts.

For calendar year 2020, we have again identified the following as areas where the NCUA faces management and performance challenges to varying degrees: – cyber threats, technology driven changes to the financial landscape, interest rate risk, membership trends, and challenges facing smaller credit unions and industry consolidation. Going forward, each of these same risks could potentially affect the safety and soundness of the credit union system and the Share Insurance Fund if not adequately managed.

*Cyber Threats* — Credit unions' increasing use of technology exposes the credit union system to increasing cyber-attacks. Malware, ransomware, distributed denial of service (DDOS) attacks, and other forms of cyber intrusion affect credit unions of all sizes, and will require ongoing measures for containment. These threats continue to pose significant dangers to the stability and soundness of the credit union industry and are expected to only increase in frequency and severity. Cybersecurity, therefore, remains a pressing concern for all financial institutions, including credit unions. As I noted last year, with credit unions and other small financial institutions increasingly targeted, credit unions must continue to enhance the security of their systems

For 2020, I am encouraged that the NCUA is improving and standardizing their supervision related to cybersecurity by piloting new examination procedures largely based on the Information Technology Risk Examination with an emphasis on critical security controls. Additionally, the NCUA is continuing to execute the first of two four-year cycles of the Automated Cybersecurity Examination Toolbox Maturity Assessment. The examination procedures and maturity assessments provide the NCUA with a repeatable, measurable, and transparent process for assessing cyber preparedness across federally insured institutions.

The Honorable Rodney E. Hood, Chairman  
The Honorable J. Mark McWatters, Board Member  
The Honorable Todd M. Harper, Board Member  
February 14, 2020  
Page 4

*Technology-driven Changes* — Last year I spoke of emerging financial products such as mobile payment systems, pre-paid shopping cards, and peer-to-peer lending that pose a competitive challenge to credit unions as does the emergence and increasing importance of digital currencies. As these products and digital monetary systems gain popularity, credit unions may have to be more active in marketing their products and services and rethink their business models. I am encouraged that the NCUA continues to study these issues through their Fintech and Blockchain Working Groups. The efforts of these two groups will help the NCUA manage the risks such new products and systems create.

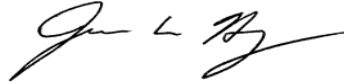

*Interest Rate Risk* — Although the consensus forecast calls for a continuation of the current low rate environment over the next two years, slower-than-expected economic growth could cause interest rates to fall. Credit unions that rely primarily on investment income may find their net income remaining low or falling. In addition, credit unions could “reach for yield,” by adding long-term and higher-risk assets to their portfolio. Finally, the sluggish economy that would likely be associated with continued low interest rates could raise credit risk for almost all types of private instruments. Not only will credit union managers need to take appropriate actions to ensure their balance sheets remain stable in a variety of interest rate environments, but the NCUA must also continue to help credit unions plan and prepare for a range of economic outcomes that can affect their performance.

*Membership Trends*— I noted the last several years that the NCUA and credit unions face the challenge of an aging demographic. Unfortunately, membership concerns continue. Although overall credit union membership continues to grow strongly, close to half of federally insured credit unions had fewer members at the end of the third quarter of 2019 than a year earlier. All credit unions need to consider whether their product mix is consistent with their members’ needs and demographic profile and I am encouraged that the NCUA has taken action that will allow for continued growth. The NCUA has updated field-of-membership rules, which provide new opportunities for credit union financial and membership growth, and consolidated many of the NCUA’s functions into a single office that provides technical assistance to credit unions. The Office of Credit Union Resources and Expansion helps credit unions with chartering, field of membership, grants and loans training, and the preservation programs for minority credit unions. These actions should produce greater efficiencies, allowing the NCUA to facilitate better growth opportunities for credit unions.

*Smaller Credit Unions’ Challenges and Industry Consolidation* — Last year was the first time I spoke of challenges facing small credit unions’ long-term viability. Specifically, I noted small credit unions face challenges such as lower returns on assets, declining membership, high loan delinquencies, and elevated non-interest expenses. I also noted that if current consolidation trends persist, there will be fewer credit unions in operation and those that remain will be considerably larger and more complex. Large credit unions tend to offer more complex products, services and investments. Increasingly complex institutions will pose management challenges for the institutions themselves, as well as the NCUA since consolidation means the risks posed by individual institutions will become more significant to the Share Insurance Fund.

## **Overview**

### ***I. Mission and Organizational Structure***

#### **NCUSIF Mission**

The National Credit Union Administration (NCUA) administers the National Credit Union Share Insurance Fund (NCUSIF or Fund).<sup>1</sup> Congress created the NCUSIF in 1970 to insure members' shares (deposits) in credit unions. The NCUSIF protects members' accounts in insured credit unions in the event of a credit union failure. The NCUSIF insures the balance of each members' accounts, dollar-for-dollar, up to at least the standard maximum share insurance amount of \$250,000, including principal and posted dividends through the date of a failure, subject to various rules on account types, rights, and capacities. As of December 31, 2019, the NCUSIF insures \$1.2 trillion in member shares in approximately 5,200 credit unions.

#### **Organizational Structure**

The NCUA's Executive Director is responsible for the agency's daily operation. The Director of the Office of Examination and Insurance (E&I) is responsible for the NCUA's supervision programs, which ensure the safety and soundness of federally insured credit unions. The E&I Director is also responsible for managing the NCUSIF. Regional offices and the Office of National Examinations and Supervision are responsible for the examination and supervision of federally insured credit unions. Other NCUA offices provide operational and administrative services to the NCUSIF.

The Asset Management and Assistance Center (AMAC) is responsible for conducting credit union liquidations. Upon liquidation, a credit union is closed and becomes an Asset Management Estate (AME), for which AMAC collects the obligations due to the liquidated credit union, monetizes assets and distributes amounts to claimants, including the NCUSIF, according to their respective regulatory payout priorities. AMEs include assets and liabilities from failed natural person credit unions (NPCU AMEs) and corporate credit unions (Corporate AMEs).

### ***II. Performance Goals, Objectives, and Results***

Performance measures are designed to enable management and our stakeholders to assess programs and financial performance. In measuring the performance of the NCUSIF for 2019 and 2018, the following additional measures should be considered:

---

<sup>1</sup> The NCUSIF is one of four funds established in the U.S. Treasury and administered by the NCUA Board as of December 31, 2019. The four permanent funds include the NCUSIF, the Operating Fund, the Central Liquidity Facility (CLF) and the Community Development Revolving Loan Fund. All four funds report under separate financial statements.

<b>2019 and 2018 Performance Measures</b>		
	December 31, 2019	December 31, 2018
Equity Ratio	1.35%	1.39%
Insured Shares	\$1.2 trillion	\$1.1 trillion
Number of Credit Union Involuntary Liquidations and Assisted Mergers	2	8
Assets in CAMEL <sup>2</sup> 3, 4 and 5 rated Credit Unions	\$52.5 billion	\$66.9 billion

### *Equity Ratio and Normal Operating Level*

The financial performance of the NCUSIF can be measured by comparing the equity ratio to the Normal Operating Level (NOL). The equity ratio is calculated as the ratio of the one-percent (1.00%) contributed capital deposit plus cumulative results of operations, excluding net cumulative unrealized gains and losses on investments, to the aggregate amount of insured shares in all federally insured credit unions. The NOL is the Board's target equity level for the NCUSIF. Pursuant to the Federal Credit Union Act, the NCUA Board sets the NOL between 1.20% and 1.50%. On December 12, 2019, the Board set the NOL at 1.38%, equal to the previous level of 1.38%.

The NCUSIF pays a distribution when the year-end equity ratio exceeds the NOL and the available assets ratio exceeds 1.00% at year-end. As of December 31, 2019, the equity ratio was 1.35%, which is below the NOL. Previously, the equity ratio was 1.39% as of December 31, 2018, which was above the established NOL of 1.38%. As a result, the NCUA Board approved a Share Insurance distribution of \$160.1 million to eligible, federally insured credits unions. This distribution was paid during the second quarter of 2019.

### *Insurance Related Activities*

The NCUA identifies credit unions at risk of failure through the supervisory and examination process. Estimated losses are based on economic trends and each credit union's financial condition and operations. The NCUA also evaluates overall credit union trends and monitors potential system-wide risk factors, such as increasing levels of consumer debt, bankruptcies, and delinquencies.

For 2019, there were two credit union failures compared to eight failures in 2018. The cost of these failures, or the estimated cost of resolution at the time of liquidation, for the current year is \$40.3 million compared to \$785.0 million for failures that occurred in 2018.

The NCUA's supervisory actions may result in the conservatorship of federally insured credit unions. As of December 31, 2019, there were two credit unions operating under the NCUA's conservatorship. Estimated losses related to conserved credit unions are determined as part of the Fund's reserve methodology and are contained within the Insurance and Guarantee Program Liabilities line item in the Balance Sheets.

The credit union industry remained stable during 2019. The aggregate net worth ratio increased during the year ending at 11.4% versus 11.3% at December 31, 2018. Assets in CAMEL 3, 4

<sup>2</sup> The CAMEL system, which applies a rating to the credit union ranging from "1" (strongest) to "5" (weakest), is based upon an evaluation of five critical elements of a credit union's operations: Capital Adequacy, Asset Quality, Management, Earnings, and Liquidity/Asset-Liability Management (CAMEL). The NCUA employs the CAMEL rating system as a tool to measure risk and allocate resources for supervisory purposes.

and 5 rated credit unions decreased to \$52.5 billion at the end of 2019 versus \$66.9 billion at the end of 2018.

### III. Financial Statement Analysis

The NCUSIF ended 2019 with an increase in Total Assets and Net Position. The increase in Total Assets is largely attributable to the increase in investments. Insurance and Guarantee Program Liabilities decreased from the prior year. Net Cost of Operations increased to \$136.8 million, primarily as a result of increases in the Reserve Expense within the Provision for Insurance Losses line item. These changes are explained in further detail below.

<b>Summarized Financial Information</b>				
(Dollars in Thousands)	<b>2019</b>	<b>2018</b>	<b>Increase / (Decrease)</b>	
			<b>\$</b>	<b>%</b>
<b>Net Position</b>				
<b>Assets:</b>				
Investments, Net	16,019,816	15,072,202	947,614	6.3%

Other	91,514	76,265	15,249	20.0%
<b>Total Assets</b>	<b>\$16,721,557</b>	<b>\$15,846,682</b>	<b>\$874,875</b>	<b>5.5%</b>
<b>Total Liabilities</b>	<b>\$121,596</b>	<b>\$125,056</b>	<b>(\$3,460)</b>	<b>-2.8%</b>
<b>Net Position (Assets minus Liabilities)</b>	<b>\$16,599,961</b>	<b>\$15,721,626</b>	<b>\$878,335</b>	<b>5.6%</b>
<b>Net Cost</b>				
<b>Gross Costs:</b>				
Operating Expenses	191,077	187,395	3,682	2.0%
Provision for Insurance Losses	(40,595)	(113,826)	73,231	64.3%
Other Losses	87	2,786	(2,699)	-96.9%
<b>Total Gross Costs</b>	<b>\$150,569</b>	<b>\$76,355</b>	<b>\$74,214</b>	<b>97.2%</b>
<b>Exchange Revenue</b>	<b>\$13,768</b>	<b>\$18,158</b>	<b>(\$4,390)</b>	<b>-24.2%</b>
<b>Total Net Cost of Operations</b>	<b>\$136,801</b>	<b>\$58,197</b>	<b>\$78,604</b>	<b>135.1%</b>
<b>Cumulative Results of Operations</b>				
<b>Beginning Balance</b>	<b>\$4,394,392</b>	<b>\$4,971,367</b>	<b>(\$576,975)</b>	<b>-11.6%</b>
<b>Financing Sources:</b>				
Interest Revenue - Investments	306,467	284,716	21,751	7.6%
Distribution to Credit Unions	(160,099)	(735,679)	575,580	78.2%
Net Unrealized Gain / (Loss) - Investments	228,615	(67,815)	296,430	437.1%
<b>Total Financing Sources</b>	<b>\$374,983</b>	<b>(\$518,778)</b>	<b>\$893,761</b>	<b>172.3%</b>
<b>Net Cost of Operations</b>	<b>\$136,801</b>	<b>\$58,197</b>	<b>\$78,604</b>	<b>135.1%</b>
<b>Cumulative Results of Operations</b>	<b>\$4,632,574</b>	<b>\$4,394,392</b>	<b>\$238,182</b>	<b>5.4%</b>
<b>Contributed Capital</b>	<b>\$11,967,387</b>	<b>\$11,327,234</b>	<b>\$640,153</b>	<b>5.7%</b>
<b>Net Position</b>	<b>\$16,599,961</b>	<b>\$15,721,626</b>	<b>\$878,335</b>	<b>5.6%</b>

### *Fiduciary Activity Highlights*

The financial results of the NPCU AMEs and Corporate AMEs with the NCUA Guaranteed Notes (NGN) Program Trusts are not presented in the results of the NCUSIF as described above, but are presented as fiduciary activities of the NCUSIF in accordance with the Federal Accounting Standards Advisory Board's Statement of Federal Financial Accounting Standard (SFFAS) No. 31, *Accounting for Fiduciary Activities*, and are included in the notes to the NCUSIF financial statements.

### *NGN Program*

The outstanding principal balance of the NGNs was \$3.2 billion and \$4.4 billion as of December 31, 2019 and 2018, respectively. This amount represents the maximum potential future guarantee payments that the NCUA could be required to make. The losses from the guarantees of NGNs are expected to be significantly less than the above maximum potential exposure. The NCUA's estimate of the expected recovery from the Corporate AMEs is derived using a model and reflects the NCUA's expectations and assumptions about the estimated cash flows of the Corporate AMEs' assets.

As of December 31, 2019 and 2018, the NCUA Board, as liquidating agent of the Corporate AMEs, held approximately \$0.9 billion and \$1.1 billion in post-securitized assets, respectively. Generally, post-securitized assets are the Legacy Assets that are no longer secured by the NGNs. The table below represents the composition of Legacy Assets collateralizing the remaining nine NGNs with an aggregate unpaid principal balance of \$5.4 billion and recovery value of approximately \$4.3 billion as of December 31, 2019. There were nine NGNs with an aggregate unpaid principal balance of \$6.5 billion and recovery value of approximately \$5.2 billion as of December 31, 2018.

**Composition of Legacy Assets Collateralizing the NGN Trusts**

Asset Type and Credit Rating <sup>1</sup>	Based on Recovery Value				Based on Unpaid Principal Balance				
	December 31, 2019		December 31, 2018		December 31, 2019		December 31, 2018		
RMBS	AAA		0%		1%		0%		1%

Percentages may not total 100% due to rounding.

<sup>1</sup> The rating is based on the lowest published rating by S&P, Moody's, or Fitch.

<sup>2</sup> The collateral underlying the ABS included in the table above is primarily student loans.

## Limitations of the Financial Statements

The principal financial statements have been prepared to report the financial position and results of operations of the NCUSIF. While the statements have been prepared from the books and records of the NCUSIF in accordance with U.S. generally accepted accounting principles (GAAP) for federal entities and the formats prescribed by the Office of Management and Budget, the statements are in addition to the financial reports used to monitor and control budgetary resources that are prepared from the same books and records. The statements should be read with the realization that they are for a component of the U.S. Government, a sovereign entity.

## Liquidity Risk and Capital Resources

For liquidity, the NCUSIF maintains cash in its Fund Balance with Treasury (FBWT) account as well as investments in U.S. Treasury securities. Investments in U.S. Treasury securities include overnight investments, which are available to meet urgent liquidity needs of the NCUSIF.

<b>2019 and 2018 Fund Balance with Treasury and Investments</b>		
	December 31, 2019	December 31, 2018
Fund Balance with Treasury	\$ 7.9 million	\$ 5.0 million
U.S. Treasury Securities		
Overnight	516.3 million	1,218.5 million
Available-for-Sale	15,503.5 million	13,853.7 million

During 2019, the NCUSIF’s FBWT and Investments increased overall primarily due to capital contributions of \$640.2 million from credit unions and \$306.5 million from interest earned on investments.

The NCUSIF has multiple funding sources to include:

- capitalization deposits contributed by insured credit unions, as provided by the *Federal Credit Union Act*, Public Law 73-467, as amended (FCU Act);
- guarantee fees;
- cumulative results of operations retained by the NCUSIF;
- premium assessments on insured credit unions, as necessary;
- borrowings from the U.S. Treasury; and
- borrowings from the Central Liquidity Facility (CLF).

The NCUSIF is a revolving fund in the U.S. Treasury and has access to sufficient funds to meet its obligations, including its Insurance and Guarantee Program Liabilities.

#### ***IV. Systems, Controls, and Legal Compliance***

The NCUSIF was created by Title II of the FCU Act, 12 U.S.C. §1781 *et seq.*, as amended. In January 2011, the *National Credit Union Authority Clarification Act*, Public Law 111-382, amended the definitions of “equity ratio” and “net worth” in the FCU Act. The NCUA, including the NCUSIF, is exempt from requirements under the *Federal Credit Reform Act of 1990* (2 U.S.C. § 661 *et seq.*).

Internal controls should be designed to provide reasonable assurance regarding prevention or prompt detection of unauthorized acquisition, use, or disposition of assets. The *Federal Managers’ Financial Integrity Act*, Public Law 97–255 (FMFIA), requires agencies to establish management controls over their programs and financial systems. Accordingly, NCUA management is responsible for establishing and maintaining effective internal controls and financial management systems that meet the objectives of FMFIA, which include safeguarding assets and compliance with applicable laws and regulations. NCUA management monitors and assesses its relevant internal controls and reports on its assessment. This allows NCUA management to provide reasonable assurance that internal controls are operating effectively. The NCUA is in compliance with FMFIA as well as all applicable laws such as the *Prompt Payment Act*, Public Law 97-177, and the *Debt Collection Improvement Act*, Public Law 104–134.

The *Improper Payments Information Act of 2002*, Public Law 107–300 (IPIA), as amended by the *Improper Payments Elimination and Recovery Act of 2010*, Public Law 111-204 (IPERA), and the *Improper Payments Elimination and Recovery Improvement Act of 2012*, Public Law 112-248 (IPERIA), requires federal agencies to review all programs and activities they

administer to identify those that may be susceptible to significant improper payments. We have determined that the NCUSIF's programs are not susceptible to a high risk of significant improper payments.

As required by the *Federal Information Security Management Act*, Public Law 107-347, as amended (FISMA), the NCUA develops, documents, and implements an agency-wide program to provide information privacy and security (management, operational, and technical security controls) for the information and information systems that support the operations of the agency, including those provided or managed by another agency, contractor, or other source.

## Independent Auditors' Report

Inspector General, National Credit Union Administration and  
the National Credit Union Administration Board:

### Report on the Financial Statements

We have audited the accompanying financial statements of the National Credit Union Share Insurance Fund (NCUSIF) which comprise the balance sheets as of December 31, 2019 and 2018, and the related statements of net cost, changes in net position, and combined statements of budgetary resources for the years then ended, and the related notes to the financial statements.

#### *Management's Responsibility for the Financial Statements*

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the schedule that is free from material misstatement, whether due to fraud or error.

#### *Auditors' Responsibility*

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America, in accordance with the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, and in accordance with Office of Management and Budget (OMB) Bulletin No. 19-03, *Audit Requirements for Federal Financial Statements*. Those standards and OMB Bulletin No. 19-03 require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### *Opinion*

In our opinion, the financial statements referred to above presents fairly, in all material respects, the financial position of the National Credit Union Share Insurance Fund as of December 31, 2019 and 2018, and its net costs, changes in net position, and budgetary resources for the years then ended in accordance with U.S. generally accepted accounting principles.

## **Other Matters**

### *Required Supplementary Information*

U.S. generally accepted accounting principles require that the information in the Overview section be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Federal Accounting Standards Advisory Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's response to our inquiries, the basic financial statements, and other knowledge we obtained during our audits of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

## **Other Reporting Required by Government Auditing Standards**

### *Internal Control over Financial Reporting*

In planning and performing our audit of the financial statements as of and for the year ended December 31, 2019, we considered the NCUSIF's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the NCUSIF's internal control. Accordingly, we do not express an opinion on the effectiveness of the NCUSIF's internal control. We did not test all internal controls relevant to operating objectives as broadly defined by the *Federal Manager's Financial Integrity Act of 1982*.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

### *Compliance and Other Matters*

As part of obtaining reasonable assurance about whether the NCUSIF's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, and contracts, noncompliance with which could have a direct and material effect on the determination of the financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* or OMB Bulletin No. 19-03.

*Purpose of the Other Reporting Required by Government Auditing Standards*

The purpose of the communication described in the Other Reporting Required by *Government Auditing Standards* section is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the NCUSIF's internal control or compliance. Accordingly, this communication is not suitable for any other purpose.

# NATIONAL CREDIT UNION SHARE INSURANCE FUND

## NOTES TO THE FINANCIAL STATEMENTS

For the Years Ended December 31, 2019 and 2018

---

### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### **Reporting Entity**

The National Credit Union Share Insurance Fund (NCUSIF) was created by Title II of the *Federal Credit Union Act*, Public Law 73-467, as amended (FCU Act), 12 U.S.C. § 1781 *et seq.* The NCUSIF was established as a revolving fund in the Treasury of the United States (U.S. Treasury), under management of the National Credit Union Administration (NCUA) Board (NCUA Board) for the purpose of insuring member share deposits in all federal credit unions (FCUs) and in federally insured state-chartered credit unions.

The NCUA exercises direct supervisory authority over FCUs and coordinates supervisory involvement with the state chartering authorities for state-chartered credit unions insured by the NCUSIF. Federally insured (insured) credit unions are required to report certain financial and statistical information to the NCUA on a quarterly basis and are subject to periodic examination by the NCUA. Information derived through the supervision and examination process provides the NCUA with the ability to identify insured credit unions experiencing financial difficulties that may require assistance from the NCUSIF.

Assistance from the NCUSIF, pursuant to the FCU Act, may be in the form of a waiver of statutory reserve requirements, liquidity assistance in the form of a guaranteed line of credit, cash assistance in the form of a subordinated note, or other such form. In some cases, a merger partner for the credit union may be sought. Mergers between financially troubled credit unions and stronger credit unions may also require NCUSIF assistance. Merger assistance may be in the form of cash assistance, purchase of certain assets by the NCUSIF, and/or guarantees of the values of certain assets (e.g., primarily loans). When a credit union is no longer able to continue operating and the merger and assistance alternatives are not practical, the NCUSIF or the appropriate state supervisory authority may liquidate the credit union. In the event of a credit union liquidation, the NCUSIF pays members' shares up to the maximum insured amount and monetizes the credit union's assets.

#### **Fiduciary Responsibilities**

The NCUA's Asset Management and Assistance Center (AMAC) conducts liquidations and performs management and recovery of assets for failed credit unions. Assets and liabilities of liquidated credit unions reside in Asset Management Estates (AMEs). AMEs include assets and liabilities from failed natural person credit unions (NPCU AMEs) and corporate credit union (CCU) AMEs (Corporate AMEs).

On September 24, 2010, the NCUA Board announced the Corporate System Resolution Program (CSRP). The CSRP was a multi-stage plan for stabilizing the corporate credit union system, providing short-term and long-term funding to resolve a portfolio of residential mortgage-backed securities, commercial mortgage-backed securities, other asset-backed securities and corporate bonds (collectively referred to as the Legacy Assets) held by the failed

CCUs, and establishing a new regulatory framework for CCUs. Under the CSRP, the NCUA created a re-securitization program (the NGN Program) to provide long-term funding for the Legacy Assets through the issuance of the NGNs by trusts established for this purpose (NGN Trusts). The NGN Trusts are guaranteed by the NCUA, and backed by the full faith and credit of the United States.

Fiduciary activities are the collection or receipt, management, protection, accounting, investment, and disposition of cash and other assets held by an AME, in which non-federal individuals or entities have an ownership interest. Fiduciary assets are not assets of the federal government. Fiduciary activities are not recognized on the basic financial statements, but are reported on schedules in the notes to the financial statements in accordance with SFFAS No. 31, *Accounting for Fiduciary Activities*. The NCUA Board, as liquidating agent of the AMEs, disburses obligations owed by and collects money due to the liquidating credit unions through AMAC. The assets reported on the NCUSIF Balance Sheet are non-fiduciary.

Fiduciary assets are recorded at values that are estimated to be recovered based on market information and external valuations, such as appraisals, as well as internal and external models incorporating the NCUA's current assumptions regarding numerous factors, including prepayments, defaults, loss severity and discount rates. Legacy Assets may benefit from litigation and other efforts by various trustees, insurers, investors, and investor consortiums, including the NCUA Board as liquidating agent, to recover losses that the Legacy Assets have suffered. Any benefits from these recovery efforts will be recognized by an AME when receipt is certain. Fiduciary liabilities related to borrowings and claims are recorded at their contractual or settlement amounts as agreed by the liquidating agents and the creditors. Contingent liabilities related to legal actions are recorded if probable and measurable. Accrued liquidation costs reflect the NCUA's estimates and assumptions regarding the timing and associated costs to dispose of the AME assets.

Unless expressly guaranteed by the NCUA and backed by the full faith and credit of the United States, the AMEs' unsecured creditors, including the NCUSIF, could only expect to be paid if recoveries from the assets of the AMEs are sufficient to be distributed to the unsecured creditors in order of priority as set forth in 12 CFR §709.5(b).

### **Sources of Funding**

Deposits insured by the NCUSIF are backed by the full faith and credit of the United States. The NCUSIF has multiple sources of funding. Each insured credit union is required to deposit and maintain 1.00% of its insured shares in the NCUSIF. The NCUA Board may also assess premiums to all insured credit unions, as provided by the FCU Act.

In addition, the NCUSIF may receive investment interest income, guarantee fees, and recoveries from the AMEs including proceeds recovered from legal claims and asset sales. The NCUSIF also has authority to borrow from the U.S. Treasury and the ability to borrow from the NCUA's Central Liquidity Facility (CLF).

### **Accounting Principles**

The NCUSIF's financial statements have been prepared from its accounting records in accordance with standards promulgated by the Federal Accounting Standards Advisory Board (FASAB). FASAB is designated by the American Institute of Certified Public Accountants as

the source of generally accepted accounting principles (GAAP) for federal reporting entities. The format of the financial statements and footnotes is in accordance with the form and content guidance provided in Office of Management and Budget (OMB) Circular A-136, *Financial Reporting Requirements*, revised June 28, 2019.

Consistent with SFFAS No. 34, *The Hierarchy of Generally Accepted Accounting Principles, Including the Application of Standards Issued by the Financial Accounting Standards Board*, the NCUA considers and where appropriate, applies Financial Accounting Standards Board (FASB) guidance for those instances where no applicable FASAB guidance is available. Any such significant instances are identified herein.

Accounting standards require all reporting entities to disclose that accounting standards allow certain presentations and disclosures to be modified, if needed, to prevent the disclosure of classified information.

In its accounting structure, the NCUSIF records both proprietary and budgetary accounting transactions. Following the accrual method of accounting, revenues are recognized when earned and expenses are recognized when incurred. Federal budgetary accounting recognizes the obligation of appropriations, borrowing authorities, and other fund resources upon the establishment of a properly documented legal liability, which may be different from the recording of an accrual-based transaction. The recognition of budgetary accounting transactions is essential for compliance with legal controls over the use of federal funds and compliance with budgetary laws.

Budgetary and financial accounting information are complementary, but the types of information and the timing of their recognition are different. Information is needed about the differences between proprietary and budgetary accounting, which is accomplished in part by presenting a Reconciliation of Net Cost of Operations to Net Outlays Note 15. In accordance with SFFAS No. 53, *Budget and Accrual Reconciliation*, the Reconciliation of Net Cost of Operations to Net Outlays has replaced the Reconciliation of Net Cost of Operations to Budget in the Notes to the Financial Statements. The Reconciliation of Net Cost of Operations to Net Outlays helps explain and clarify how proprietary basis of accounting Net Cost of Operations (cash and non-cash transactions) relates to budgetary basis of accounting Net Outlays (cash transactions) and the reconciling items between the two.

The NCUA, including the NCUSIF, is exempt from requirements under the *Federal Credit Reform Act of 1990* (2 U.S.C. § 661 et seq.).

### **Use of Estimates**

The preparation of financial statements in conformity with GAAP for the federal government requires management to make estimates and assumptions that affect the following:

- reported amounts of assets and liabilities;
- disclosure of contingent assets and liabilities at the date of the financial statements; and
- the amounts of revenues and expenses reported during that period.

Significant items subject to those estimates and assumptions include: (i) allowance amounts for losses on the receivables from AMEs for claims paid on their behalf; (ii) reserves for probable

losses and contingencies related to Insurance and Guarantee Program Liabilities; (iii) the amount and timing of recoveries, if any, related to any claims paid and the settlement of guarantee liabilities; (iv) allowance amounts established for loan losses related to cash assistance provided to insured credit unions; and (v) determination of the accounts payable accrual.

### **Fund Balance with Treasury**

Fund Balance with Treasury (FBWT) is the aggregate amount of funds in accounts held by the U.S. Treasury from which the NCUSIF is authorized to make expenditures and pay liabilities. The entire FBWT is a revolving fund type.

### **Investments, Net**

Investment securities primarily consist of market-based U.S. Treasury securities of varying maturities (debt securities). The NCUSIF also holds non-marketable U.S. Treasury overnight securities purchased and reported at par value, which are classified as held-to-maturity. All marketable securities are carried as available-for-sale in accordance with FASB Accounting Standards Codification (ASC) 320, *Investments – Debt and Equity Securities*.

Interest earned and unrealized holding gains and losses on U.S. Treasury securities are excluded from net costs and reported as components of non-exchange revenue. Realized gains and losses from the sale of available-for-sale securities are determined on a specific identification basis.

All U.S. Treasury securities that are in an unrealized loss position are reviewed for other-than-temporary impairment (OTTI). The NCUSIF evaluates its U.S. Treasury securities on a monthly basis. An investment security is deemed impaired if the fair value of the investment is less than its amortized cost. Amortized cost includes adjustments (if any) made to the cost basis of an investment for accretion, amortization, and previous OTTI. To determine whether impairment is an OTTI, the NCUA takes into consideration whether it has the intent to sell the security. The NCUA also considers available evidence to assess whether it is more likely than not that it will be required to sell the debt security before the recovery of its amortized cost basis. If the NCUA intends to sell or, more likely than not, will be required to sell the security before recovery of its amortized cost basis, an OTTI shall be considered to have occurred.

Premiums and discounts are amortized over the life of the related available-for-sale security as an adjustment to yield using the effective interest method.

### **Accrued Interest Receivable**

The NCUSIF recognizes accrued interest receivable for amounts of interest contractually earned but not yet received.

### **Accounts Receivable**

Accounts receivable represents the NCUSIF's claims for payment from other entities. Gross receivables are reduced to net realizable value by an allowance for doubtful accounts as further discussed below. Public accounts receivable represent accounts receivable between the NCUSIF and non-federal entities and are categorized as follows:

#### *Capitalization Deposits from Insured Credit Unions*

Each insured credit union pays to and maintains with the NCUSIF a capitalization deposit amount equal to 1.00% of its insured shares. Receivables and associated non-exchange revenue are recognized upon invoicing.

#### *Guarantee Fee on NCUA Guaranteed Notes*

Guarantee fee accounts receivable represents outstanding balances of guarantee fees associated with the NGN Trusts.

#### *Premium Assessments from Insured Credit Unions*

The NCUA Board has the statutory authority under Section 202 of the FCU Act to assess a premium charge to insured credit unions. The NCUA Board may assess each insured credit union a premium charge in an amount stated as a percentage of insured shares only if the equity ratio is less than 1.30% and the premium charge does not exceed the amount necessary to restore the equity ratio to 1.30%. When the NCUA Board projects that the equity ratio will, within six months, fall below 1.20%, the NCUA Board must establish and implement a restoration plan within 90 days, which meets the statutory requirements and any further conditions that the NCUA Board determines appropriate. In order to meet statutory requirements, the plan must provide that the equity ratio will meet or exceed the minimum amount specified of 1.20% before the end of the eight-year period beginning upon the implementation of the plan (or such longer period as the NCUA Board may determine to be necessary due to extraordinary circumstances).

The NCUA Board did not assess premiums for 2019 and 2018.

#### *Allowance for Doubtful Accounts*

An allowance for doubtful accounts is the NCUA's best estimate of the amount of losses in an existing NCUSIF receivable. Based on an assessment of collectability, the NCUSIF calculates an allowance on an individual account basis for public accounts receivable. An account may be impaired or written off if it is probable that the NCUSIF will not collect all amounts contractually due. No allowance is calculated for intragovernmental accounts receivable as these are deemed to be fully collectible.

#### **General Property, Plant and Equipment, Net**

General Property, Plant and Equipment, Net consists of internal-use software and assets under capital lease, and is recognized and measured in accordance with SFFAS No. 6, *Accounting for Property, Plant, and Equipment*.

Costs incurred for internal use software during the software development phase are capitalized in accordance with SFFAS No. 10, *Accounting for Internal Use Software*. General property, plant and equipment is subject to depreciation and carried at net cost once placed into service. Depreciation and amortization are computed by the straight-line method over the estimated useful lives of equipment and software; (the shorter of either the estimated useful life or lease term is applied for leasehold improvements and capital leases). Assets under capital lease are depreciable over three years, which corresponds with the life of the underlying capital lease. Internal use software has a useful life of three years per the NCUA capitalization policy.

## **Receivables from Asset Management Estates, Net**

The NCUA records a receivable from AMEs when claims are paid by the NCUSIF in order to satisfy obligations to insured shareholders and other guaranteed parties, as well as to pay administrative expenses on behalf of AMEs. Assets held by the AMEs are the main source of repayment of the NCUSIF's receivables from the AMEs. As the assets are monetized, recoveries from the assets are paid to the NCUSIF to reduce the receivable from AMEs.

The gross AME receivable is reduced by an allowance for loss. This allowance represents the difference between the funds disbursed and obligations incurred and the expected repayment, when recognized, from the AMEs pursuant to the liquidation payment priorities set forth in 12 C.F.R. §709.5(b). The NCUA records the allowance amount for loss on receivables from AMEs based on expected asset recovery rates. The asset recovery rates are based on several sources including:

- actual or pending AME asset disposition data;
- asset valuation data based upon the performance, quality, and type of the assets in the portfolio;
- estimated liquidation costs based on information from similar recently failed credit unions; and
- estimated AME specific administrative expenses based upon complexity and expected duration of the AME.

## **Insurance and Guarantee Program Liabilities**

In 2019, the NCUA implemented SFFAS No. 51, *Insurance Programs*. The purpose of this statement is to establish consistent accounting and financial reporting standards for insurance programs across the federal government. SFFAS No. 51 requires that the financial statements and accompanying footnote disclosures provide concise, meaningful and transparent information regarding the operating performance of the NCUA's two insurance activities – Insured Credit Unions and NCUA Guaranteed Notes (NGN), which are classified as exchange transaction insurance programs.

Pursuant to SFFAS No. 51, the NCUA is required to recognize revenue on insurance premiums as earned. The NCUA must also recognize, measure and record liabilities for unearned premiums, unpaid insurance claims and losses on remaining coverage as applicable. In addition, the NCUA must disclose information about the purpose, full costs (to include premium collections and borrowing authority), investing activities and arrangement duration of our insurance programs as well as our premium pricing policies, the nature and magnitude of our estimates, the total amount of insurance coverage provided through the end of the reporting period and any events that could have a material effect on the recorded liability. Information concerning the NCUSIF's premium pricing policies and premiums collections can be found under the Accounts Receivable header herein. The NCUSIF's investment securities primarily consist of market-based U.S. Treasury securities of varying maturities (debt securities) and its investing activities are described in Notes 2 and 3. The nature and terms of the NCUSIF's borrowing authority is addressed in Note 11. The total amount of insurance coverage provided through the end of the reporting period is outlined in Note 13. The remaining information required to be disclosed is discussed further in Note 8.

Consistent with the presentation in prior reporting periods, SFFAS No. 51 also requires a roll-forward of the Insurance and Guarantee Program Liabilities balance from the prior year to the current period. The NCUA has adopted the revised titles for each component of the roll-forward as applicable, except for the term “Claim expenses”, which will remain “Reserve expense”. Though the titles represent the exact same activity, the NCUA has elected to retain the prior presentation of “Reserve expense” in an effort to: 1) maintain clarity for the users of the financial statements; and 2) ensure comparability between the Statements of Net Cost and Note 8.

The NCUSIF records a liability for probable losses relating to insured credit unions and the NGNs. The year-end liability for insurance losses is comprised of general and specific reserves. The general reserve is derived using an internal econometric model that applies estimated probability of failure and loss rates while the specific reserve is based on analyses performed on credit unions where failure is probable and additional information is available to make a reasonable estimate of losses.

Liabilities for loss contingencies on the NGNs arise from claims, assessments, litigation, fines and penalties, and other sources. These loss contingencies are recorded when it is probable that a liability has been incurred and the amount of the assessment and/or remediation can be reasonably estimated. Legal costs incurred in connection with loss contingencies are expensed as incurred.

#### **Other Liabilities - Capital Lease Liability**

In accordance with SFFAS No. 5, *Accounting for Liabilities of the Federal Government*, and SFFAS No. 6, the NCUSIF records a depreciable asset and liability for all capital leases at the present value of the rental and other minimum lease payments during the lease term.

#### **Net Position and Contributed Capital**

The *Credit Union Membership Access Act of 1998*, Public Law 105–219 (CUMAA), mandated changes to the NCUSIF’s capitalization provisions, effective January 1, 2000. The CUMAA added provisions mandating that the amount of each insured credit union’s deposit is adjusted as follows, in accordance with procedures determined by the NCUA Board, to reflect changes in the credit union’s insured shares: (i) annually, in the case of an insured credit union with total assets of less than \$50.0 million; and (ii) semi-annually, in the case of an insured credit union with total assets of \$50.0 million or more. The annual and semi-annual adjustments are based on insured member share deposits outstanding as of December 31 of the preceding year and June 30 of the current year, respectively. The 1.00% contribution is returned to the insured credit union in the event that its insurance coverage is terminated, or is obtained from another source, or the operations of the NCUSIF are transferred from the NCUA Board. The NCUSIF reports the capitalization deposits from insured credit unions as contributed capital. This amount is included in the NCUSIF’s Balance Sheets and Statements of Changes in Net Position.

Beginning in 2000, the CUMAA mandated that distributions to insured credit unions be determined from specific ratios, which are based in part upon year-end data. Distributions associated with insured shares at year-end are declared and paid in the subsequent year. The NCUSIF equity ratio is calculated as the ratio of contributed capital plus cumulative results of

operations, excluding net cumulative unrealized gains and losses on investments, to the aggregate amount of the insured shares in all insured credit unions.

## **Revenue Recognition**

### *Exchange Revenue*

Exchange revenues arise and are recognized when a federal government entity provides goods and services to the public or to another federal government entity for a price. Exchange revenue, which primarily consists of premium assessments, guarantee fee income, and interest revenue, is used to recover the losses of the credit union system.

### *Guarantee Fees on NCUA Guaranteed Notes*

For a fee, the NCUA guarantees the timely payment of principal and interest on the NGNs.

### *Premium Assessments from Insured Credit Unions*

The NCUA Board may assess each insured credit union a premium charge for insurance in an amount stated as a percentage of insured shares.

### *Non-Exchange Revenue*

Non-exchange revenues are inflows of resources that the federal government demands or receives by donation. Such revenues are recognized when a specifically identifiable, legally enforceable claim to resources arises, to the extent that collection is probable and the amount is reasonably estimable. The NCUSIF recognizes non-exchange revenue as described below.

Each insured credit union pays to and maintains with the NCUSIF a capitalization deposit amount equal to 1.00% of its insured shares. This amount is recognized as non-exchange revenue when invoiced. In accordance with SFFAS No. 7, *Accounting for Revenue and Other Financing Sources and Concepts for Reconciling Budgetary and Financial Accounting*, the NCUSIF recognizes interest revenue on investments in U.S. Treasury securities as non-exchange revenue because the main source of funds for investments comes from capital deposits. The related unrealized holding gains and losses on investments in U.S. Treasury securities are excluded from net costs and reported as a component of non-exchange revenue.

## **Tax-Exempt Status**

The NCUA, as a government entity, is not subject to federal, state, or local income taxes.

## **Disclosure Entities**

SFFAS No. 47, *Reporting Entity*, requires that our financial statements reflect the balances and activities of the fund and any other reporting entities under NCUSIF control. Entities that are owned and/or controlled by the NCUA as a result of a regulatory action are generally classified as disclosure entities if the relationship with such entities is not expected to be permanent. Pursuant to SFFAS No. 47, the NCUA identifies receiverships and conservatorships as disclosure entities.

### *Receiverships*

An AME is a receivership-type entity that is established to oversee assets and other property acquired from a failed credit union. AMAC conducts liquidations and oversees the management and recovery of assets for failed credit unions. The NCUA has two types of AMEs: 1) Natural person AMEs from the resolution of failed natural-person credit unions, and 2) Corporate AMEs from the resolution of failed corporate credit unions. These activities are considered fiduciary activities in accordance with SFFAS No. 31 and are disclosed under Note 14.

### *Conservatorships*

The NCUA may place a credit union into conservatorship in order to resolve operational problems that could affect that credit union's safety and soundness. Conservatorship means the NCUA has taken control of the credit union. During a conservatorship, the credit union remains open, members may transact business, and accounts remain insured by the NCUSIF. For federally chartered credit unions, the NCUA takes this action on its own; in the case of a state-chartered credit union, the state supervisory authority initiates the conservatorship and, in many cases, appoints the NCUA as agent for the conservator. Conservatorships can have three outcomes: 1) the credit union can resolve its operational problems and be returned to member ownership; 2) the credit union can merge with another credit union; or 3) the NCUA can liquidate the credit union. The NCUA lists credit unions currently under conservatorship on its website.

### **Reclassification**

Certain prior year amounts have been reclassified to conform to the current year presentation.

## **2. FUND BALANCE WITH TREASURY**

FBWT balances and status at December 31, 2019 and 2018 consisted of the following (in thousands):

	<u>2019</u>	<u>2018</u>
Status of Fund Balance with Treasury:		
Unobligated Balance - Available	\$ 15,874,406	\$ 15,186,319
Obligated Balances Not Yet Disbursed	5,621	6,794
Non-Budgetary Investment Accounts	(15,795,449)	(15,125,624)
Non-Budgetary FBWT Accounts	<u>(76,631)</u>	<u>(62,489)</u>
Total	<u>\$ 7,947</u>	<u>\$ 5,000</u>

As a revolving fund, the FBWT account is used for continuing business-like activities. The NCUSIF collects capitalization deposits, guarantee fees, AME recoveries and premiums, which may be invested in U.S. Treasury securities. The proceeds are primarily held to cover insurance losses and guarantee payments, and are also used for merger assistance, liquidations, and other administrative expenses. The FBWT account contains monies available for future obligations as well as monies obligated for current activities. Non-Budgetary Investment Accounts, which consist of U.S. Treasury investments, reduce the status of fund balance. Non-Budgetary FBWT Accounts may consist of budgetary receivables, borrowing authority, and

non-expenditure transfers. Funds not needed for immediate liquidity are invested in overnight U.S. Treasury securities. Should the overnight account exceed NCUSIF policy limits, the NCUSIF will invest the additional funds in market-based U.S. Treasury securities according to the Fund's investment policy guidelines.

As of December 31, 2019 and 2018, there were no unreconciled differences between U.S. Treasury records and balances reported on the NCUSIF's general ledger.

### 3. INVESTMENTS

The FCU Act, Section 203(c), 12 U.S.C. § 1783(c), as amended, provides guidance regarding U.S. Treasury security investments. All investments at the NCUSIF pertain to market-based (available-for-sale) U.S. Treasury securities of varying maturities and non-marketable (held-to-maturity) U.S. Treasury daily overnight securities. Premiums or discounts on available-for-sale securities are amortized using the effective interest method.

As of December 31, 2019 and 2018, the carrying amount, gross unrealized holding gains/losses, and fair value of U.S. Treasury securities were as follows (in thousands):

	Cost	Amortized (Premium) Discount	Interest Receivable	Investments, Net (Par)	Net Unrealized Gain/(Loss)	Carrying/ Fair Value
As of December 31, 2019:						
U.S. Treasury Securities						
Available-for-Sale	\$ 15,557,172	\$ (97,974)	\$ 76,631	\$ 15,350,000	\$ 44,349	\$ 15,503,547
Held to Maturity	516,269	-	-	516,269	-	516,269
Total	<u>\$ 16,073,441</u>	<u>\$ (97,974)</u>	<u>\$ 76,631</u>	<u>\$ 15,866,269</u>	<u>\$ 44,349</u>	<u>\$ 16,019,816</u>
As of December 31, 2018:						
U.S. Treasury Securities						
Available-for-Sale	\$ 14,106,883	\$ (68,914)	\$ 62,454	\$ 14,000,000	\$ (184,266)	\$ 13,853,703
Held to Maturity	1,218,499	-	-	1,218,499	-	1,218,499
Total	<u>\$ 15,325,382</u>	<u>\$ (68,914)</u>	<u>\$ 62,454</u>	<u>\$ 15,218,499</u>	<u>\$ (184,266)</u>	<u>\$ 15,072,202</u>

Maturities of U.S. Treasury securities as of December 31, 2019 and 2018 were as follows (in thousands):

	2019 Fair Value	2018 Fair Value
Held to Maturity (Overnights)	\$ 516,269	\$ 1,218,499
Available-for-Sale:		
Due in one year or less	4,511,563	2,775,562
Due after one year through five years	7,372,156	9,363,016
Due after five years through ten years	3,619,828	1,715,125
Total	<u>\$ 16,019,816</u>	<u>\$ 15,072,202</u>

For the years ended December 31, 2019 and 2018, there were no realized gains from sales of U.S. Treasury securities.

The following table includes gross unrealized losses on investment securities, for which an OTTI has not been recognized, in addition to the fair values of those securities, aggregated by investment classification and length of time the investments have been in a loss position, at December 31, 2019 and 2018 (in thousands):

	Losses		Losses		Total	
	Less than 12 months		12 months or more			
	Unrealized Losses	Fair Value	Unrealized losses	Fair value	Unrealized losses	Fair value
As of December 31, 2019:						
Available-for-Sale:						
U.S. Treasury Securities	\$ (32,629)	\$ 4,093,188	\$ (3,094)	\$ 1,609,594	\$ (35,723)	\$ 5,702,782
As of December 31, 2018:						
Available-for-Sale:						
U.S. Treasury Securities	\$ (7,574)	\$ 1,479,125	\$ (182,366)	\$ 10,133,734	\$ (189,940)	\$ 11,612,859

#### 4. ACCOUNTS RECEIVABLE

##### Public – Accounts Receivable

###### *Accounts Receivable Due from Insured Credit Unions*

As of December 31, 2019 and 2018, no accounts receivable were due from insured credit unions.

###### *NGN Guarantee Fee Receivable*

For a fee, the NCUA guarantees the timely payment of principal and interest on the NGNs. Guarantee fees on each NGN Trust are 35 basis points per year, payable monthly, on the outstanding balance of the NGNs. As of December 31, 2019 and 2018, the NGN guarantee fee receivable was \$0.8 million and \$1.1 million, respectively.

The allowance for doubtful accounts on public accounts receivable as of December 31, 2019 and 2018 was \$0.

#### 5. NOTE RECEIVABLE

##### Intragovernmental – Note Receivable

###### *Note Due from the NCUA Operating Fund*

In 1992, the NCUSIF entered into a commitment to lend \$42.0 million to the NCUA Operating Fund, pursuant to a 30-year note secured by the NCUA premises in Alexandria, Virginia. Interest income recognized was approximately \$112.4 thousand and \$123.1 thousand for the

years ended December 31, 2019 and 2018, respectively. The note receivable balance as of December 31, 2019 and 2018 was approximately \$5.0 million and \$6.4 million, respectively.

The variable rate on the note is equal to the NCUSIF's prior-month yield on investments. The average interest rate for the years ended December 31, 2019 and 2018 was 1.98% and 1.80%, respectively. The interest rate as of December 31, 2019 and 2018 was 1.88% and 2.01%, respectively.

As of December 31, 2019, the above note requires principal repayments as follows (in thousands):

<b>Years Ending December 31</b>	<b>Secured Term Note</b>
2020	1,341
2021	1,341
2022	1,341
2023	1,005
Total	<u>\$ 5,028</u>

## 6. GENERAL PROPERTY, PLANT AND EQUIPMENT, NET

The components of General Property, Plant and Equipment, Net as of December 31, 2019 and 2018 were as follows (in thousands):

	<b>Cost</b>	<b>Accumulated Depreciation</b>	<b>Net Book Value</b>
As of December 31, 2019:			
Assets under Capital Lease	\$ 176	\$ (63)	\$ 113
Internal-Use Software	<u>2,017</u>	<u>(2,017)</u>	<u>-</u>
Total General Property, Plant and Equipment	<u>\$ 2,193</u>	<u>\$ (2,080)</u>	<u>\$ 113</u>
As of December 31, 2018:			
Assets under Capital Lease	\$ 176	\$ (4)	\$ 172
Internal-Use Software	<u>2,017</u>	<u>(1,977)</u>	<u>40</u>
Total General Property, Plant and Equipment	<u>\$ 2,193</u>	<u>\$ (1,981)</u>	<u>\$ 212</u>

## 7. RECEIVABLES FROM ASSET MANAGEMENT ESTATES (AMES), NET

AMES include assets and liabilities from failed natural person credit unions (NPCU AMEs) and corporate credit union AMEs (Corporate AMEs). The components of the Receivables from AMEs, Net as of December 31, 2019 and 2018 were as follows (in thousands):

	2019			2018		
	<u>Corporate</u>			<u>Corporate</u>		
	<u>NPCU AMEs</u>	<u>AMEs</u>	<u>Total</u>	<u>NPCU AMEs</u>	<u>AMEs</u>	<u>Total</u>
Gross Receivable from AME	\$ 1,800,089	\$ 2,804,049	\$ 4,604,138	\$ 1,868,736	\$ 2,895,652	\$ 4,764,388
Allowance for Loss, beginning balance	1,459,868	2,606,305	4,066,173	787,497	2,679,849	3,467,346
AME Receivable Bad Debt Expense (Reduction)	(9,831)	(69,599)	(79,430)	(26,315)	(73,544)	(99,859)
Increase in Allowance	40,048	-	40,048	752,902	-	752,902
Write-off of Canceled Charters	(32,880)	-	(32,880)	(54,216)	-	(54,216)
Allowance for Loss, ending balance	1,457,205	2,536,706	3,993,911	1,459,868	2,606,305	4,066,173
Receivable from AME, Net	\$ 342,884	\$ 267,343	\$ 610,227	\$ 408,868	\$ 289,347	\$ 698,215

AME Receivable Bad Debt Expense (Reduction) for the NPCU AMEs represents overall increases in expected asset recovery rates and related repayments. The Increase in Allowance primarily represents the net loss on payments made during liquidation. The amounts for Write-off of Canceled Charters total the final loss or recovery recognized upon closing AMEs.

AME Receivable Bad Debt Expense (Reduction) for the Corporate AMEs takes into account the NCUA's expectations and assumptions about the recovery value of the Corporate AMEs' assets, as further discussed in Note 14.

## 8. INSURANCE AND GUARANTEE PROGRAM LIABILITIES

### Insured Credit Unions

The NCUSIF insures member deposits held in federal and federally insured state-chartered credit unions up to \$250,000 per account in the event of a credit union failure. As the regulator of credit unions, the NCUA evaluates overall economic trends and monitors potential system-wide risk factors, such as increasing levels of consumer debt, bankruptcies, and delinquencies. The NCUA also employs the CAMEL rating system as a tool to measure risk and allocate resources for supervisory purposes. The CAMEL system, which applies a rating to the credit union ranging from "1" (strongest) to "5" (weakest), is based upon an evaluation of five critical elements of a credit union's operations: Capital Adequacy, Asset Quality, Management, Earnings, and Liquidity/Asset-Liability Management (CAMEL). These criteria ensure that credit union examiners assess all significant financial, operational, and management factors when evaluating a credit union's performance and risk profile. The NCUA uses this information to identify insured credit unions experiencing financial difficulty and estimate future losses on both a general and specific basis. The NCUSIF records an insurance program liability – comprised of general and specific reserves – to cover losses resulting from insured credit union failures.

The general reserve is derived using an internal econometric model that applies estimated probability of failure and loss rates. The probability of failure is driven by CAMEL ratings and

credit union level financial data; it also incorporates macroeconomic data such as the consumer price index and geographic housing prices. The loss rates take into account historical losses, CAMEL ratings, credit union level financial ratios and other economic measures. These variables are evaluated periodically to determine the reasonableness of the model output, which provides a range of forecasted losses between the 75 percent and 90 percent confidence level intervals.

Specific reserves are established for credit unions whose failure is probable and sufficient information is available to make a reasonable estimate of losses. The specific reserves are presented net of estimated recoveries from the disposition of assets held by failed credit unions.

The aggregate amount of reserves recognized for insured credit unions and AMEs was \$117.0 million and \$119.1 million as of December 31, 2019 and 2018, respectively. The activity in the Insurance and Guarantee Program Liabilities from insured credit unions and AMEs was as follows (in thousands):

	<u>2019</u>	<u>2018</u>
Beginning balance	\$ 119,053	\$ 925,487
Reserve expenses (reduction)	38,835	(13,967)
Payments to settle claims	(51,418)	(1,165,033)
Recoveries and other adjustments	10,508	372,566
Ending balance	<u>\$ 116,978</u>	<u>\$ 119,053</u>

The Insurance and Guarantee Program Liabilities at December 31, 2019 and 2018 were comprised of the following:

- Specific reserves were \$6.4 million and \$7.3 million, respectively.
- General reserves were \$110.6 million and \$111.8 million, respectively.

In exercising its supervisory function, the NCUSIF will occasionally extend guarantees of assets (primarily loans) to third-party purchasers or existing insured credit unions in order to facilitate mergers. The NCUSIF would be obligated upon borrower nonperformance. There were no guarantees outstanding during 2019 or as of December 31, 2019. There were no guarantees outstanding during 2018 or as of December 31, 2018.

The NCUSIF may also grant a guaranteed line-of-credit to a third-party lender, such as a corporate credit union or bank, if an insured credit union had a current or immediate liquidity concern and the third-party lender refused to extend credit without a guarantee. The NCUSIF would be obligated if the insured credit union failed to perform. Total line-of-credit guarantees for credit unions as of December 31, 2019 and 2018 were approximately \$3.5 million and \$0, respectively. The insured credit unions borrowed \$1.3 million and \$0 from the third-party lender under these lines-of-credit guarantees as of December 31, 2019 and 2018, respectively. As of December 31, 2019 and 2018, the NCUSIF reserved \$75.5 thousand and \$0, respectively, for these guaranteed lines-of-credit.

On rare occasions, the NCUSIF may provide indemnifications as part of merger assistance or purchase and assumption agreements with acquiring credit unions. Such indemnifications make the NCUSIF contingently liable based on the outcome of any legal actions. There were no such indemnification contingencies as of December 31, 2019 and 2018.

In addition to these recognized contingent liabilities, adverse performance in the financial services industry could result in additional losses to the NCUSIF. The ultimate losses for insured credit unions will largely depend upon future economic and market conditions and could differ significantly from these estimates.

### **NCUA Guaranteed Notes**

The NCUA, through the NCUSIF, administers the NGN Program, which was implemented when the Legacy Assets formerly held by the failed CCUs were transferred to NGN Trusts and securitized through the issuance of notes. These notes were issued as a series of floating and fixed-rate NGNs and have final maturities ranging from 2016 to 2021. As payments are made on the collateral underlying the Legacy Assets, the NGN Trusts are required to distribute the cash flows received in the following order: guarantee fees, guarantee payments of principal and interest, guarantor reimbursements and residuals (recovery values).

The NCUA receives a guarantee fee payment from the NGN Trusts on each NGN payment date equal to 35 basis points of the outstanding NGN balance prior to the distribution of principal on the payment date. In exchange for this fee, the NCUSIF ensures the timely payment of principal and interest due to NGN investors and guarantees parity payments if there are differences between the expected and actual unpaid principal balance on the monthly payment date.

Guarantor reimbursements from the NGN Trusts to the NCUA will not occur until the applicable NGNs have been repaid in full. Once the NGNs are repaid in full, any cash flows received on the Legacy Assets underlying the NGN Trusts are directed toward reimbursement until the NCUA is reimbursed in full. The NCUA earns interest on any guarantee payments not yet reimbursed by the NGN Trusts at a rate equal to the interest rate on the associated NGNs.

As of December 31, 2019, the outstanding principal balance of the NGNs was \$3.2 billion. This amount represents the maximum potential, but not the expected, future guarantee payments that the NCUA could be required to make. The gross estimated guarantee payments of \$2.4 billion were offset by contractual guarantor reimbursements and earned interest of \$2.4 billion and receivables from the Corporate AMEs based on the value of their economic residual interests in the NGN Trusts of up to \$1.6 billion.

At December 31, 2018, the outstanding principal balance of the NGNs was \$4.4 billion. The gross estimated guarantee payments of \$2.5 billion were offset by contractual guarantor reimbursements and earned interest of \$2.4 billion and receivables from the Corporate AMEs based on the value of their economic residual interests in the NGN Trusts of up to \$1.4 billion.

There were no probable losses for the guarantee of NGNs associated with the re-securitization transactions as of December 31, 2019 and 2018, respectively.

The NCUA uses a model to estimate the guarantee liability associated with the NGN Program. The guarantee liability is comprised of NCUA’s estimated guarantee payments, guarantor reimbursements, and the recovery values, if any, of the Corporate AMEs’ economic residual interests in the NGN Trusts are derived using a model that distributes estimated cash flows of the Legacy Assets transferred to the NGN Trusts in the priority of payments pursuant to the governing documents of each NGN Trust. The estimated cash flows incorporated the NCUA’s assumptions about discount rates. The NCUSIF recorded no liabilities on its Balance Sheet for NGNs as of December 31, 2019 and 2018.

The model produced estimated cash flows of collateral underlying the Legacy Assets by incorporating the NCUA’s expectations and assumptions about prepayments, defaults and loss severity of the collateral consisting of residential and commercial mortgages and other assets. Assumptions about prepayments, defaults and loss severity were developed based on the characteristics and historical performance of the collateral, as well as assumptions about macroeconomic variables such as unemployment rate and housing prices, among other factors.

The model used to derive the expected losses from the guarantee of the NGNs is sensitive to assumptions made about Legacy Asset performance. Key assumptions in the modeling include borrower status, prepayments, default, loss severity, discount rates, forward interest rate curves, house price appreciation forecasts, legal and regulatory changes, property locations, and unemployment expectations. Management evaluates these inputs and variables regularly to determine the reasonableness of the assumptions over time.

## 9. OTHER LIABILITIES

The NCUSIF leases laptops for state credit union examiners under a capital lease agreement with a non-federal vendor that ends in 2021. The capital lease liability as of December 31, 2019 and 2018 was \$118.8 thousand and \$176.4 thousand, respectively.

The future minimum lease payments to be paid over the remaining life as of December 31, 2019 are as follows (in thousands):

<b>Years Ending December 31</b>	<b>Minimum Lease Payments</b>
2020	61
2021	<u>61</u>
Total Future Lease Payments	\$ 122
Less: Imputed Interest	<u>(3)</u>
Net Capital Lease Liability	<u><u>\$ 119</u></u>

The capital lease liability is covered by budgetary resources. The remaining balance in Other Liabilities includes payroll and other accrued liabilities, totaling \$1.7 million and \$0.9 million at December 31, 2019 and 2018, respectively.

## 10. INTRAGOVERNMENTAL COSTS AND EXCHANGE REVENUE

Program costs and revenues are separated between Intragovernmental and Public to facilitate government-wide financial reporting. Intragovernmental revenue and costs arise from transactions with other federal entities. Public revenue and costs arise from transactions with persons and organizations outside of the federal government. Intragovernmental costs and exchange revenue as of December 31, 2019 and 2018 were as follows (in thousands):

<b>Intragovernmental Costs and Exchange Revenue</b>	<b>2019</b>	<b>2018</b>
Intragovernmental Costs	\$ 182,894	\$ 180,201
Public Costs/(Cost Reduction)	<u>(32,325)</u>	<u>(103,846)</u>
Total	<u>150,569</u>	<u>76,355</u>
Intragovernmental Exchange Revenue	(112)	(123)
Public Exchange Revenue	<u>(13,656)</u>	<u>(18,035)</u>
Total	<u>(13,768)</u>	<u>(18,158)</u>
Net Cost	<u>\$ 136,801</u>	<u>\$ 58,197</u>

Certain administrative services are provided to the NCUSIF by the NCUA Operating Fund. The NCUSIF is charged by the NCUA Operating Fund for these services based upon an annual allocation factor derived from a study of actual usage. In 2019 and 2018, the allocation to the NCUSIF was 60.5% and 61.5% of the NCUA Operating Fund's expenses, respectively. The cost of the services allocated to the NCUSIF, which totaled approximately \$182.9 million and \$180.2 million for the years ended December 31, 2019 and 2018, respectively, is reflected as an expense in the Statements of Net Cost and above in Intragovernmental Costs. The following table provides a breakdown of the administrative services provided to the NCUSIF by the NCUA Operating Fund (in thousands):

<b>Administrative Services Reimbursed to the NCUA Operating Fund</b>	<b>2019</b>	<b>2018</b>
Employee Salaries	\$ 93,211	\$ 92,539
Employee Benefits	36,715	37,395
Employee Travel	13,946	14,740
Rent, Communications, and Utilities	3,962	3,713
Contracted Services	26,356	22,475
Depreciation and Amortization	3,940	3,641
Administrative Costs	<u>4,764</u>	<u>5,698</u>
Total Services Provided by the NCUA Operating Fund	<u>\$ 182,894</u>	<u>\$ 180,201</u>

As of December 31, 2019 and 2018, amounts due to the NCUA Operating Fund for allocated expenses were \$2.3 million and \$4.0 million, respectively.

## 11. AVAILABLE BORROWING AUTHORITY, END OF PERIOD

The NCUSIF has \$6.0 billion in borrowing authority from the U.S. Treasury. Available borrowing authority, as of December 31, 2019 and 2018, was \$6.0 billion and \$6.0 billion, respectively.

Under the FCU Act, the NCUSIF also has the ability to borrow from the CLF. The NCUSIF is authorized to borrow from the CLF up to the amount of the CLF's unused borrowing authority. As of December 31, 2019 and 2018, the CLF had statutory borrowing authority of \$7.3 billion and \$7.0 billion, respectively. As of December 31, 2019 and 2018, the CLF had a note purchase agreement with the Federal Financing Bank with a maximum principal of \$2.0 billion and \$2.0 billion, respectively, all of which was unused. Advances made under the current promissory note can be made no later than March 31, 2020. The NCUSIF did not exercise its borrowing authority in 2019 or 2018.

## 12. DISCLOSURES RELATED TO THE STATEMENTS OF BUDGETARY RESOURCES

The Statements of Budgetary Resources discloses total budgetary resources available to the NCUSIF, and the status of resources as of December 31, 2019 and 2018. Activity impacting budget totals of the overall federal government budget is recorded in the NCUSIF's Statements of Budgetary Resources budgetary accounts. As of December 31, 2019 and 2018, the NCUSIF's resources in budgetary accounts were \$16.5 billion and \$17.4 billion, respectively. All liabilities are covered by budgetary resources, excluding the Insurance and Guarantee Program Liabilities because they are contingent liabilities and do not require budgetary resources until the liabilities are no longer contingent. All obligations incurred by the NCUSIF are reimbursable. The NCUSIF is exempt from OMB apportionment control.

The NCUSIF has \$1.3 million and \$0.9 million in unpaid undelivered orders, and \$1.0 million and \$1.0 million in paid undelivered orders, as of December 31, 2019 and 2018, respectively. The breakdown of unpaid and paid undelivered orders from federal and non-federal sources as of December 31, 2019 and 2018 are as follows (in thousands):

<b>Undelivered obligations</b>	<b>2019</b>	<b>2018</b>
Federal:		
Unpaid	\$ -	\$ -
Paid	-	-
Nonfederal:		
Unpaid	\$ 1,271	\$ 903
Paid	1,020	995
Total:		
Unpaid, undelivered obligations	<u>\$ 1,271</u>	<u>\$ 903</u>
Paid, undelivered obligations	<u>\$ 1,020</u>	<u>\$ 995</u>

Budgetary resources listed on the NCUSIF's financial statements and the budgetary resources found in the budget of the federal government differ because the NCUSIF's annual financial statements are prepared as of December 31, on a calendar year, rather than as of September 30, the federal government's fiscal year end.

### **13. CONTRIBUTED CAPITAL**

As of December 31, 2019 and 2018, contributed capital owed to the NCUSIF totaled \$0. Contributed capital due from insured credit unions was \$0 as of December 31, 2019 and 2018.

On December 12, 2019, the Board set the NOL at 1.38%, which is equal to the previously set NOL level on December 13, 2018.

Pursuant to the FCU Act, the NCUSIF-calculated equity ratio is 1.35% as of December 31, 2019. This equity ratio is based on insured shares of \$1.2 trillion as of December 31, 2019, and is below the normal operating level of 1.38%.

As of December 31, 2018, the NCUSIF equity ratio of 1.39% was above the normal operating level of 1.38%, which resulted in a \$160.1 million distribution to credit unions that was paid during the second quarter of 2019. Total contributed capital as of December 31, 2019 and 2018 was \$12.0 billion and \$11.3 billion, respectively.

The NCUSIF's available assets ratio as of December 31, 2019 and 2018 was 1.30% and 1.31%, based on total insured shares as of December 31, 2019 and 2018 of \$1.2 trillion and \$1.1 trillion, respectively. The NCUSIF available assets ratio, as defined by the FCU Act, is calculated as the ratio of (A) the amount determined by subtracting (i) direct liabilities of the NCUSIF and contingent liabilities for which no provision for losses has been made, from (ii) the sum of cash and the market value of unencumbered investments authorized under Section 203(c) of the FCU Act, to (B) the aggregate amount of the insured shares in all insured credit unions.

### **14. FIDUCIARY ACTIVITIES**

#### **(a) Natural Person Credit Unions AMEs**

Following is the Schedule of Fiduciary Activity as of December 31, 2019 and 2018 (in thousands):

<b><u>Schedule of Fiduciary Activity</u></b>	<b><u>2019</u></b>	<b><u>2018</u></b>
<b>Fiduciary Net Liabilities, beginning of year</b>	\$ (1,467,231)	\$ (795,403)
Net Realized Losses upon Liquidation	(40,198)	(752,265)
<b>Revenues</b>		
Interest on Loans	30,596	7,561
Other Fiduciary Revenues	132	215
<b>Expenses</b>		
Professional & Outside Services Expenses	(18,253)	(6,577)
Compensation and Benefits	(537)	(458)
Other Expenses	(803)	(381)
<b>Net Change in Recovery Value of Assets and Liabilities</b>		
Net Gain on Loans	9,177	27,497
Net Gain/(Loss) on Real Estate Owned	(802)	162
Other, Net (Loss)	(8,348)	(1,798)
<b>(Increase) in Fiduciary Net Liabilities</b>	<u>(29,036)</u>	<u>(726,044)</u>
Write-off of Fiduciary Liabilities for		
Canceled Charters	32,880	54,216
<b>Fiduciary Net Liabilities, end of year</b>	<u><b>\$ (1,463,387)</b></u>	<u><b>\$ (1,467,231)</b></u>

The NPCU AMEs' fiduciary net liabilities decreased by \$3.9 million from 2018 to 2019 due to canceled charter write-offs of \$32.9 million, partially offset by an increase in fiduciary net liabilities of \$29.0 million.

Revenues consist of cash collected during the liquidation of assets held within the AME. Gains and losses include the revaluation of assets based upon expected asset recovery rates and the disposition of assets and adjustments to liabilities, which contribute to the change in fiduciary net assets/liabilities. Following is the Schedule of Fiduciary Net Assets/Liabilities as of December 31, 2019 and 2018 (in thousands):

<b><u>Schedule of Fiduciary Net Assets/Liabilities</u></b>	<b><u>2019</u></b>	<b><u>2018</u></b>
<b>Fiduciary Assets</b>		
Loans	\$ 316,346	\$ 375,382
Real Estate Owned	2,731	6,542
Other Fiduciary Assets	48,642	64,847
<b>Total Fiduciary Assets</b>	<u>367,719</u>	<u>446,771</u>
<b>Fiduciary Liabilities</b>		
Insured Shares	472	1,478
Accrued Liquidation Expenses	27,314	39,662
Unsecured Claims	1,563	709
Uninsured Shares	1,668	3,417
Due to NCUSIF (Note 7)	1,800,089	1,868,736
<b>Total Fiduciary Liabilities</b>	<u>1,831,106</u>	<u>1,914,002</u>
<b>Total Fiduciary Net Assets/(Liabilities)</b>	<u><b>\$ (1,463,387)</b></u>	<u><b>\$ (1,467,231)</b></u>

Loans also includes amounts related to criminal restitution owed to the U.S. government. As of December 31, 2019 and 2018, gross receivables related to criminal restitution orders were \$247.1 million and \$206.2 million, of which we determined \$40.6 thousand and \$60.8 thousand were collectible, respectively.

**(b) Corporate AMEs (Legacy TCCUSF AMEs)**

Following are the Schedules of Fiduciary Activity for the years ended December 31, 2019 and 2018 (in thousands):

Schedule of Fiduciary Activity	For the Year Ended December 31, 2019

<b>Fiduciary Net Liabilities, December 31, 2018</b>	<u>\$ 393,271</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 393,271</u>

For the year ended December 31, 2019, the Corporate AMEs' Fiduciary Net Liabilities decreased by \$325.7 million. This decrease represents a benefit to the AME claimants, of which a portion was recognized by the NCUSIF through the reduction of the AME Receivable Bad Debt Expense, as discussed in Note 7.

The Schedule of Fiduciary Activity includes revenues earned on investments, including Legacy Assets, loans, real estate and other investments, and expenses incurred in orderly liquidation of the AMEs, including interest expense on borrowings and the NGNs.

Following are the Schedules of Fiduciary Net Assets/Liabilities as of December 31, 2019 and 2018 (in thousands):

<u>Schedule of Fiduciary Net Assets / Liabilities</u>	<u>As of December 31, 2019</u>

<b>Total Fiduciary Net Assets / (Liabilities)</b>	<b>\$ (393,271)</b>	<b>\$ -</b>	<b>\$ -</b>	<b>\$ (393,271)</b>

The Schedule of Fiduciary Net Assets reflects the expected recovery value of the Corporate AMEs' assets, including the Legacy Assets collateralizing the NGNs issued through the NGN Trusts, and the settlement value of valid claims against the Corporate AMEs outstanding at December 31, 2019 and 2018. Certain claims against the Corporate AMEs and the NGNs are guaranteed by the NCUA as previously discussed herein.

There were no maturities of NGN principal balances during 2019 and 2018.

As of December 31, 2019 and 2018, the NCUA held \$0 and \$528.9 million, respectively, in fiduciary cash on behalf of the Corporate AMEs.

## 15. RECONCILIATION OF NET COST OF OPERATIONS TO NET OUTLAYS

The reconciliation of net outlays, presented on a budgetary basis, and the net cost, presented on an accrual basis, provides an explanation of the relationship between budgetary and financial accounting information. The reconciliation serves not only to identify costs paid for in the past and those that will be paid in the future, but also to assure integrity between budgetary and financial accounting. The Reconciliation of Net Cost of Operations to Net Outlays is shown

below (in thousands):

<b>Reconciliation of Net Cost of Operations to Net Outlays</b>	<b>2019</b>		
	<b>Intra- governmental</b>	<b>With the public</b>	<b>Total</b>
<b>Net Cost of / (Income from) Operations</b>	\$ 182,782	\$ (45,981)	\$ 136,801

## Independent Auditors' Report

Inspector General, National Credit Union Administration and  
the National Credit Union Administration Board:

### Report on the Financial Statements

We have audited the accompanying financial statements of the National Credit Union Administration Operating Fund (the Fund), which comprise the balance sheets as of December 31, 2019 and 2018, and the related statements of revenues, expenses, and changes in fund balance, and cash flows for the years then ended, and the related notes to the financial statements.

#### *Management's Responsibility for the Financial Statements*

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that is free from material misstatement, whether due to fraud or error.

#### *Auditors' Responsibility*

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America, in accordance with the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, and in accordance with Office of Management and Budget (OMB) Bulletin No. 19-03, *Audit Requirements for Federal Financial Statements*. Those standards and OMB Bulletin No. 19-03 require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### *Opinion*

In our opinion, the financial statements referred to above presents fairly, in all material respects, the financial position of the National Credit Union Administration Operating Fund as of December 31, 2019 and 2018, and its revenues, expenses, changes in fund balance and cash flows for the years then ended in accordance with U.S. generally accepted accounting principles.

## **Other Reporting Required by Government Auditing Standards**

### *Internal Control over Financial Reporting*

In planning and performing our audit of the financial statements as of and for the year ended December 31, 2019, we considered the Fund's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control. Accordingly, we do not express an opinion on the effectiveness of the Fund's internal control. We did not test all internal controls relevant to operating objectives as broadly defined by the *Federal Manager's Financial Integrity Act of 1982*.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

### *Compliance and Other Matters*

As part of obtaining reasonable assurance about whether the Fund's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, and contracts, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* or OMB Bulletin No. 19-03.

### *Purpose of the Other Reporting Required by Government Auditing Standards*

The purpose of the communication described in the Other Reporting Required by *Government Auditing Standards* section is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Fund's internal control or compliance. Accordingly, this communication is not suitable for any other purpose.

# NATIONAL CREDIT UNION ADMINISTRATION OPERATING FUND

## NOTES TO THE FINANCIAL STATEMENTS For the Years Ended December 31, 2019 and 2018

---

### 1. ORGANIZATION AND PURPOSE

The National Credit Union Administration Operating Fund (the “Fund”) was created by the Federal Credit Union Act of 1934. The Fund is a revolving fund in the United States Treasury under the management of the National Credit Union Administration (NCUA) Board providing administration and service to the federal credit union system.

A significant majority of the Fund’s revenue is comprised of operating fees paid by federal credit unions. Each federal credit union is required to pay this fee based upon a fee schedule that is applied to its prior year-end assets.

### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

**Basis of Presentation** – The Fund prepares its financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP), based on standards issued by the Financial Accounting Standards Board (FASB), the private sector standards setting body. The Federal Accounting Standards Advisory Board (FASAB) is the standards setting body for the establishment of GAAP with respect to the financial statements of federal entities. FASAB has indicated that financial statements prepared based upon standards promulgated by FASB may also be regarded as in accordance with GAAP for federal entities that have issued financial statements based upon FASB standards in the past.

**Basis of Accounting** – The Fund maintains its accounting records in accordance with the accrual basis of accounting and recognizes income when earned and expenses when incurred. In addition, the Fund records investment transactions when they are executed and recognizes interest on investments when it is earned.

**Use of Estimates** – The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the following:

- reported amounts of assets and liabilities;
- disclosure of contingent liabilities at the date of the financial statements; and
- the reported amounts of revenues and expenses incurred during the reporting period.

Significant items subject to those estimates and assumptions include: (i) the determination of the FECA actuarial liability; (ii) certain intangible asset values; (iii) determination of the accounts payable accrual; and (iv) if there is any determination of a long-lived asset impairment, the related measurement of the impairment charges.

**Related Party Transactions** – The Fund exists within the NCUA and is one of four funds managed by the NCUA Board during 2019 and 2018. The other funds managed by the Board, deemed related parties, are:

- a) The National Credit Union Share Insurance Fund (NCUSIF),
- b) The National Credit Union Administration Central Liquidity Facility (CLF), and
- c) The National Credit Union Administration Community Development Revolving Loan Fund (CDRLF).

The Fund supports these related parties by providing office space, information technology services, and supplies as well as paying employee salaries and benefits. Certain types of support are reimbursed to the Fund by the NCUSIF and the CLF while support of the CDRLF is not reimbursed. Expenses included on the Statement of Revenues, Expenses, and Changes in Fund Balance are shown net of reimbursements from related parties.

Additional related parties are described in Note 7.

**Cash Equivalents** – Cash equivalents are highly liquid investments with original maturities of three months or less. The Federal Credit Union Act permits the Fund to invest in United States Treasury securities. All investments in 2019 and 2018 are cash equivalents and are stated at cost, which approximates fair value.

**Fixed and Intangible Assets** – Buildings, furniture, equipment, software, and leasehold improvements are recorded at cost. Software includes the cost of labor incurred by both external and internal software developers and other personnel involved in the development of the software. Capital leases are recorded at the lower of the present value of the future minimum lease payments or the fair market value of the leased asset. Depreciation and amortization are computed by the straight-line method over the estimated useful lives of buildings, furniture, equipment, and software, and the shorter of either the estimated useful life or lease term for leasehold improvements and capital leases. The schedule below shows a summary of the capitalization thresholds and useful lives used by the NCUA.

<b>Type of Asset</b>	<b>Capitalization Threshold</b>	<b>Useful Life</b>
Buildings	\$100,000	40 years
Building Improvements	\$25,000	2-40 years
Furniture and Fixtures	\$15,000	7 years
Equipment (IT and Telecommunication)	\$15,000	3 years
Commercial Software	\$15,000	3 years
Internal-Use Software (IUS)	\$100,000 or 1,000 hours	3 years
Additions/Improvements to IUS	\$50,000	≤ 3 years
Bulk Purchases	\$100,000	2- 3 years
Leasehold Improvements	\$15,000	Life of the lease

**Long-lived Assets/Impairments** – Fixed and intangible assets, subject to amortization, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. If the carrying value of the long-lived asset or asset group is not recoverable, an impairment is recognized and the asset is reported at the lower of carrying amount or fair value less the cost to sell. Fair value is determined through various valuation techniques, including discounted cash flow models, quoted market values, and third-party independent appraisals, as needed.

**Assets Held for Sale** – The Fund may have real estate held for sale. These assets are ready for immediate sale in their present condition. Real estate held for sale is recorded at the fair value less cost to sell. If an asset's fair value less cost to sell, based on a review of available financial information including but not limited to appraisals, markets analyses, etc., is less than its carrying amount, the carrying value of the asset is adjusted to its fair value less cost to sell.

Gains on disposition of real estate are recognized upon sale of the underlying asset. The Fund evaluates each real estate transaction to determine if it qualifies for gain recognition under the full accrual method. If the transaction does not meet the criteria for the full accrual method, the appropriate deferral method is used.

**Accounts Receivable** – Receivables include amounts due from the NCUSIF, employee advances, and other accounts receivable, net.

**Accounts Payable and Accrued Other Liabilities** – The Fund incurs administrative expenses and liabilities for programs pertaining to related parties that are controlled by the NCUA Board. Accruals are made as expenses are incurred. Accrued other liabilities include contingent liabilities, as described in Note 11.

**Accrued Benefits** – The Fund incurs expenses for retirement plans, employment taxes, workers compensation, transportation subsidies, and other benefits mandated by law. Corresponding liabilities recorded contain both short-term and long-term liabilities, including liabilities under the Federal Employees' Compensation Act (FECA). FECA provides income and medical cost protection to covered federal civilian employees injured on the job, employees who have incurred a work-related occupational disease, and beneficiaries of employees whose death is attributable to a job-related injury or occupational disease. The FECA program is administered by the U.S. Department of Labor (DOL), which pays valid claims and subsequently seeks reimbursement from the NCUA for these paid claims. The NCUA accrues a liability in accrued wages and benefits to recognize those payments and the NCUA subsequently reimburses DOL annually. The Fund records an estimate for the FECA actuarial liability using the DOL's FECA model. The model considers the average amount of benefit payments incurred by the agency for the past three fiscal years, multiplied by the medical and compensation liability to benefits paid ratio for the whole FECA program.

Additional information for retirement plans are described in Note 9.

**Operating Fees** – Each federal credit union is assessed an annual fee based on its assets as of December 31<sup>st</sup> of the preceding year. The fee is designed to cover the costs of providing

administration and service to the federal credit union system. The Fund recognizes this operating fee revenue ratably over the calendar year.

**Revenue Recognition** – Interest revenue and other revenue relating to sales of publications, parking income, and rental income is recognized when earned.

**Leases** – Operating leases are entered into for the acquisition of office space and equipment as part of administering the NCUA’s program. The cost of operating leases is recognized on the straight-line method over the life of the lease and includes any reductions resulting from incentives such as rent holidays, if applicable. The same method is used to recognize income from operating leases. The Fund also has capital leases which are recorded at the lower of the present value of the future minimum lease payments or the fair market value of the leased asset.

**Fair Value Measurements** – Cash and cash equivalents, due from NCUSIF, employee advances, other accounts receivable (net), obligations under capital leases, and note payable to NCUSIF are recorded at book value, which approximates estimated fair value.

**Income Taxes** – The NCUA, as a government entity, is not subject to federal, state, or local income taxes.

**Commitments and Contingencies** – Liabilities for loss contingencies arising from claims, assessments, litigation, fines and penalties, and other sources are recorded when it is probable that a liability has been incurred and the amount can be reasonably estimated. Legal costs incurred in connection with loss contingencies are expensed as incurred.

### 3. CASH AND CASH EQUIVALENTS

The Fund’s cash and cash equivalents for the years ended December 31, 2019 and 2018 are as follows (in thousands):

	<u>2019</u>	<u>2018</u>
Deposits with U.S. Treasury	\$ 10,920	\$ 12,270
U.S. Treasury Overnight Investments	<u>83,572</u>	<u>79,852</u>
Total	<u>\$ 94,492</u>	<u>\$ 92,122</u>

#### 4. FIXED ASSETS

Fixed assets are comprised of the following as of December 31, 2019 and 2018 (in thousands):

	<u>2019</u>	<u>2018</u>
Office building and land	\$ 56,213	\$ 52,736
Furniture and equipment	4,830	9,781
Leasehold improvements	513	513
Equipment under capital leases	<u>1,889</u>	<u>1,933</u>
Total assets in-use	63,445	64,963
Less accumulated depreciation	<u>(34,651)</u>	<u>(38,530)</u>
Assets in-use, net	28,794	26,433
Construction in progress	2,964	1,076
Less impairment loss	<u>-</u>	<u>(168)</u>
Fixed assets, net	<u>\$ 31,758</u>	<u>\$ 27,341</u>

Depreciation expense for the years ended December 31, 2019 and 2018 totaled \$3.6 million and \$3.2 million, respectively, before allocation to the NCUSIF as described in Note 7. Construction in progress includes costs associated with improvements for the NCUA headquarters that increase the future service potential of the building beyond the existing level of service. A net impairment loss of \$168 thousand for improvements to the NCUA headquarters was recognized for the year ended December 31, 2018. The construction in progress related to this project was fully impaired with a fair value of \$0. The amount of the loss is reported in administrative expenses on the Statements of Revenues, Expenses, and Changes in Fund Balance.

#### 5. INTANGIBLE ASSETS

Intangible assets are comprised of the following as of December 31, 2019 and 2018 (in thousands):

	<u>2019</u>	<u>2018</u>
Internal-use software	\$ 24,901	\$ 23,539
Less accumulated amortization	<u>(20,422)</u>	<u>(17,569)</u>
Total internal-use software, net	<u>4,479</u>	<u>5,970</u>
Internal-use software under development	<u>17,755</u>	<u>3,688</u>
Intangible assets, net	<u>\$ 22,234</u>	<u>\$ 9,658</u>

Internal-use software represents costs incurred from the customization of software purchased

from external vendors for internal use as well as the cost of software that is developed in-house. Amortization begins on the date the software is placed in service. Amortization expense for the years ended December 31, 2019 and 2018 totaled \$2.9 million and \$2.5 million, respectively, before allocation to the NCUSIF as described in Note 7. Internal-use software under development represents software not ready for its intended use.

## **6. ASSETS HELD FOR SALE**

Real estate available for sale purchased by the Fund is from employees enrolled in the agency's home purchase program who are unable to sell their homes in a specified time period. It is the agency's intent to dispose of these properties as quickly as possible. Sales of homes are generally expected to occur within one year, pending market forces. Ongoing costs to maintain properties are expensed as incurred. Impairment charges for 2019 and 2018 were \$96.4 thousand and \$0 thousand, respectively and are recorded as an Administrative expense within the Statements of Revenues, Expenses and Changes in Fund Balance. The balance of real estate available for sale as of December 31, 2019 was \$423.0 thousand net of impairment and costs to sell of \$49.6 thousand. The Fund did not have any real estate available for sale as of December 31, 2018.

## **7. RELATED PARTY TRANSACTIONS**

### **(a) Transactions with the NCUSIF**

Certain administrative services are provided by the Fund to the NCUSIF. These services include paying personnel costs such as pay and benefits and other associated costs which include, but are not limited to, telecommunications, supplies, printing, and postage. The Fund charges the NCUSIF for these services based on an annual Board approved allocation factor derived from a study of actual usage. In 2019 and 2018, the allocation to the NCUSIF was 60.5% and 61.5% of all expenses, respectively. The cost of the services allocated to the NCUSIF totaled \$182.9 million and \$180.2 million for 2019 and 2018, respectively. The Fund's expenses in the accompanying financial statements are presented net of these amounts. As of December 31, 2019 and 2018, amounts due from the NCUSIF totaled \$2.3 million and \$4.0 million, respectively.

In 1992, the Fund entered into a commitment to borrow up to \$42.0 million in a 30-year secured term note with the NCUSIF. The monies were drawn as needed to fund the costs of constructing a building in 1993. Interest costs incurred were \$112.4 thousand and \$123.1 thousand for 2019 and 2018, respectively. The note payable balance as of December 31, 2019 and 2018 was \$5.0 million and \$6.4 million, respectively. The current portion of the long-term debt is \$1.3 million as of December 31, 2019. The variable rate on the note is equal to the NCUSIF's prior-month yield on investments. The average interest rate during 2019 and 2018 was 1.98% and 1.80%, respectively. The interest rate as of December 31, 2019 and 2018 was 1.88% and 2.01%.

The secured-term note requires principal repayments as follows (in thousands):

<b>Years ended December 31</b>	<b><u>Secured Term Note</u></b>
2020	1,341
2021	1,341
2022	1,341
2023	1,005
Total	<u>\$ 5,028</u>

**(b) Transactions with the CLF**

Administrative services are provided by the Fund to the CLF. The Fund pays CLF employee salaries and related benefits as well as the CLF's portion of building and operating costs. Reimbursements of these expenses are determined by applying a ratio of the CLF full-time equivalent employees to the NCUA total employees with settlement and payment occurring quarterly. The CLF's remaining reimbursement expenses are paid annually. The costs of the services provided to the CLF were \$542.4 thousand and \$544.8 thousand for the years ended December 31, 2019 and 2018, respectively. The Fund's expenses in the accompanying financial statements are presented net of these amounts. Other accounts receivable include \$193.1 thousand and \$102.9 thousand of amounts due from the CLF as of December 31, 2019 and 2018, respectively.

**(c) Support of the CDRLF**

The Fund supports the administration of programs under the CDRLF by paying related personnel costs such as pay and benefits and other associated costs which include, but are not limited to, telecommunications, supplies, printing, and postage. For the years ended December 31, 2019 and 2018, unreimbursed administrative support to the CDRLF is \$630.5 thousand and \$559.6 thousand, respectively.

**(d) Federal Financial Institutions Examination Council (FFIEC)**

The FFIEC was established on March 10, 1979, as a formal interagency body empowered to prescribe uniform principles, standards, and report forms for the federal examination of financial institutions by the constituent agencies, and to make recommendations to promote uniformity in the supervision of financial institutions. By statute, the Chairman of the NCUA is one of six voting Council Members.

The NCUA is one of the five federal agencies that fund FFIEC operations. The FFIEC provides training to staff employed by Member agencies; the Member agencies are charged for these trainings based on use. A portion of the NCUA's contributions to the FFIEC cover costs associated with cross-agency data collection applications, including applications related to the Home Mortgage Disclosure Act (HMDA). For the years ended December 31, 2019 and 2018, FFIEC assessments totaled \$1.4 million and \$2.0 million, respectively. In addition, in 2019 NCUA received a refund of \$1.1 million due to lower than anticipated costs related to prior year payments. The NCUA's 2020 budgeted assessments from FFIEC total \$1.3 million.

### (e) Real Estate Available for Sale

The Fund may purchase homes from employees enrolled in the agency's home purchase program who are unable to sell their homes in a specified time period. It is the agency's intent to dispose of these properties as quickly as possible. Sales of homes are generally expected to occur within one year, pending market conditions. Ongoing costs to maintain properties are expensed as incurred.

## 8. LEASE COMMITMENTS

**Description of Leasing Agreements** – The Fund has entered into lease agreements with vendors for the rental of office space and office equipment, which includes copiers, laptops, and mail equipment.

**Operating Leases** – The Fund leases a portion of the NCUA's regional office space under lease agreements that will continue through 2023. Office rental charges amounted to approximately \$1.4 million and \$1.3 million for 2019 and 2018, respectively.

**Capital Leases** – The Fund leases copiers, laptops, and mail equipment under lease agreements that run through 2024. Amounts presented in the table below include \$43.2 thousand of imputed interest.

The future minimum lease payments to be paid over the next five years as of December 31, 2019, before reimbursements, are as follows (in thousands):

Years Ending December 31	Operating Leases	Capital Leases
2020	896	625
2021	415	582
2022	426	15
2023	326	9
2024	-	5
Total	<u>\$ 2,063</u>	<u>\$ 1,236</u>

## 9. RETIREMENT PLANS

Eligible employees of the Fund are covered by federal government retirement plans—either the Civil Service Retirement System (CSRS) or the Federal Employees Retirement System (FERS). Both plans include components that are defined benefit plans. FERS is comprised of a Social Security Benefits Plan, a Basic Benefits Plan, and the Thrift Savings Plan. Contributions to the plans are based on a percentage of an employee's gross pay. Under the Thrift Savings Plan,

employees may also elect additional contributions, the total of which were not to exceed \$19,000 (\$25,000 for age 50 and above) in 2019, an increase of \$500 from 2018. In addition, the Fund matches up to 5% of the employee's gross pay.

As of December 31, 2019 and 2018, the Fund's contributions to the plans were approximately \$27.8 million and \$26.5 million, respectively.

These defined benefit plans are administered by the U.S. Office of Personnel Management (OPM), which determines the required employer contribution level. The Fund does not account for the assets pertaining to the above plans and does not have actuarial data with respect to accumulated plan benefits or the unfunded liability relative to eligible employees. These amounts are reported by OPM and are not allocated to individual employers.

The Fund established a voluntary defined contribution 401(k) Plan (NCUA Savings Plan), effective January 1, 2012. The NCUA Collective Bargaining Agreement (CBA) sets the rates of contribution required by the Fund. The current agreement that became effective on July 7, 2015 is in effect for five years from its effective date and shall renew automatically for additional one year terms unless otherwise renegotiated by the parties. The Fund will maintain a voluntary 401(k) plan and will contribute, with no employee matching contribution, 3% of the employee's compensation as defined in *Article 9 Compensation and Benefits* of the CBA. The Fund matched an employee's voluntary contribution up to a maximum of 2.0% of the employee's total pay for 2019 and 2018. The Fund's match of 2.0% remains in effect for the duration of the CBA. The NCUA's contributions as of December 31, 2019 and 2018 were \$7.0 million and \$6.8 million, respectively. The gross operating expenses associated with the NCUA Savings Plan in 2019 and 2018 were \$95.7 thousand and \$96.2 thousand, respectively.

## **10. FAIR VALUE MEASUREMENTS**

The fair value of an instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Fund has no financial instruments that are subject to fair value measurement on a recurring basis.

### **(a) Non-recurring Fair Value Measures**

Assets held for sale is presented at aggregate fair value less cost to sell. The fair value measurement recorded during the period includes pending purchase contracts, the lower of list prices of appraisals if less than six months old (if no pending purchase contracts exist), or recent market analyses (if no recent list prices or appraisals are readily available). Additionally, the fair value incorporates estimated reductions in the fair value to recognize costs to sell the properties. These measurements fairly reflect the most current valuation of the assets.

The carrying amounts and established fair values of the Fund's assets held for sale as of December 31, 2019 and 2018 are as follows (in thousands):

<b>Assets held for sale</b>	<u>Cost Basis</u>	<u>Fair Value</u>	<u>Impairment at Year-end</u>
2019	\$ 423	\$ 423	\$ 50
2018	\$ -	\$ -	\$ -

**(b) Summary Financial Instrument Fair Values**

The following table presents the carrying values and established fair values of the Fund's financial instruments as of December 31, 2019 and 2018 (in thousands):

	<u>2019</u>		<u>2018</u>	
	<u>Carrying Amount</u>	<u>Fair Value</u>	<u>Carrying Amount</u>	<u>Fair Value</u>
Cash and cash equivalents	\$ 94,492	\$ 94,492	\$ 92,122	\$ 92,122
Due from NCUSIF	2,309	2,309	4,023	4,023
Employee advances	7	7	343	343
Other accounts receivable, net	361	361	430	430
Obligations under capital lease	1,193	1,193	1,713	1,713
Note payable to NCUSIF	5,028	5,028	6,369	6,369

The following methods and assumptions were used to estimate the fair value of each class of financial instruments:

**Cash and cash equivalents** – The carrying amount for cash and cash equivalents approximates fair value as the short-term nature of these instruments do not lead to significant fluctuations in value. Cash equivalents are U.S. Treasury overnight investments.

**Due from NCUSIF** – The carrying amount for the due from NCUSIF approximates fair value as the amount is scheduled to be paid within the first quarter of 2020.

**Employee advances** – The carrying amount for receivables from employees approximates fair value as the amount is scheduled to be paid in 2020.

**Other accounts receivable, net** – The carrying amount for other accounts receivable approximates fair value as the original gross amounts together with a valuation allowance reflect the net amount that is deemed collectible. As of December 31, 2019 and 2018, the Fund's other accounts receivable includes an allowance in the amount of \$14.7 thousand and \$6.7 thousand, respectively.

**Obligation under capital lease** – The carrying amount for the remaining obligations owed under capital lease approximates fair value because the underlying interest rate approximates rates currently available to the Fund.

**Note payable to NCUSIF** – The carrying amount for note payable to NCUSIF approximates fair value due to its variable rate nature.

## **11. CONTINGENCIES**

The NCUA recognizes contingent liabilities when a past event or transaction has occurred, a future outflow or other sacrifice of resources is probable, and the future outflow or sacrifice of resources is estimable. The NCUA is party to various routine administrative proceedings, legal actions, and claims brought against it, which have or may ultimately result in settlements or decisions against the agency. As of December 31, 2019, the NCUA had one asserted and pending legal claim with a reasonably possible likelihood of loss and estimated range of loss from \$222.0 thousand to \$1,400.0 thousand. The NCUA did not have any probable losses from asserted and pending legal claims as of December 31, 2019 and 2018.

## **12. COLLECTIVE BARGAINING AGREEMENT**

The NCUA has a CBA with the National Treasury Employees Union (NTEU) that became effective on July 7, 2015. NTEU is the exclusive representative of approximately 75% of the NCUA employees.

## **13. RESTRUCTURING PLAN**

In 2017, the NCUA Board approved a restructuring plan with the goals of greater efficiency, responsiveness, and cost-effectiveness. The plan eliminated agency offices with overlapping functions and improved functions such as examination reporting, records management and procurement. The agency completed the headquarters reorganization in 2018, while the consolidation from five to three regional offices became effective on January 7, 2019. The facilities improvements associated with the restructuring plan will be complete by 2020.

In accordance with FASB ASC 420, *Exit or Disposal Cost Obligations*, the NCUA estimates total restructuring costs to be \$13.0 million. This estimate includes employee termination benefits of \$855.0 thousand, relocation costs of \$2.4 million, and other administrative costs of \$9.8 million. To date, \$10.7 million in costs have been incurred for this plan including approximately \$6.5 million and \$3.1 million in 2019 and 2018, respectively.

In 2018, the NCUA incurred \$120.0 thousand in employee termination benefits. As of December 31, 2018, the NCUA had a \$240.0 thousand liability associated with employee termination benefits. In 2019, the NCUA did not incur any additional costs associated with employee termination benefits and paid \$240.0 thousand of the liability. As of December 31, 2019, the NCUA does not have a liability associated with employee termination benefits. To date, the NCUA has incurred \$882.5 thousand in costs for employee termination benefits.

In 2018, the NCUA incurred \$1.5 million for relocation expenses, of which \$797.5 thousand was a liability. In 2019, the NCUA incurred an additional \$117.4 thousand in relocation expenses and paid \$779.9 thousand of the liability. As of December 31, 2019, the NCUA has a \$135.0 thousand liability associated with relocation. To date, the NCUA has incurred \$1.8 million in costs for relocation expenses.

In 2018, the NCUA incurred \$1.5 million in other administrative costs, of which \$657.8 thousand was a liability as of December 31, 2018. In 2019, the NCUA incurred an additional \$6.4 million in other administrative costs and paid \$657.8 thousand of the liability. As of December 31, 2019, the NCUA has a \$424.9 thousand liability associated with other administrative costs. To date, the NCUA has incurred \$8.1 million in other administrative costs.

Incurred costs are included in the Statement of Revenues, Expenses, and Changes in Fund Balance on the following line items: Employee wages and benefits; Contracted services; and Administrative. Incurred costs associated with facilities improvements are included in the Balance Sheet as a part of Fixed assets.

#### **14. SUBSEQUENT EVENTS**

Subsequent events have been evaluated through February 14, 2020, which is the date the financial statements were available to be issued. On February 3, 2020, the NCUA sold the only property that was classified as available for sale for \$434.2 thousand. Management determined that there were no additional significant items to be disclosed as of December 31, 2019.

## Independent Auditors' Report

Inspector General, National Credit Union Administration and  
the National Credit Union Administration Board:

### Report on the Financial Statements

We have audited the accompanying financial statements of the National Credit Union Administration Central Liquidity Facility (CLF), which comprise the balance sheets as of December 31, 2019 and 2018, and the related statements of operations, members' equity, and cash flows for the years then ended, and the related notes to the financial statements.

#### *Management's Responsibility for the Financial Statements*

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### *Auditors' Responsibility*

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America, in accordance with the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, and in accordance with Office of Management and Budget (OMB) Bulletin No. 19-03, *Audit Requirements for Federal Financial Statements*. Those standards and OMB Bulletin No. 19-03 require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### *Opinion*

In our opinion, the financial statements referred to above presents fairly, in all material respects, the financial position of the National Credit Union Administration Central Liquidity Facility as of December 31, 2019 and 2018, and its operations, members' equity, and cash flows for the years then ended in accordance with U.S. generally accepted accounting principles.

## **Other Reporting Required by Government Auditing Standards**

### *Internal Control over Financial Reporting*

In planning and performing our audit of the financial statements as of and for the year ended December 31, 2019, we considered the CLF's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the CLF's internal control. Accordingly, we do not express an opinion on the effectiveness of the CLF's internal control. We did not test all internal controls relevant to operating objectives as broadly defined by the *Federal Manager's Financial Integrity Act of 1982*.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

### *Compliance and Other Matters*

As part of obtaining reasonable assurance about whether the CLF's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, and contracts, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* or OMB Bulletin No. 19-03.

### *Purpose of the Other Reporting Required by Government Auditing Standards*

The purpose of the communication described in the Other Reporting Required by *Government Auditing Standards* section is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the CLF's internal control or compliance. Accordingly, this communication is not suitable for any other purpose.

# NATIONAL CREDIT UNION ADMINISTRATION CENTRAL LIQUIDITY FACILITY

## NOTES TO FINANCIAL STATEMENTS For the Years Ended December 31, 2019 and 2018

---

### 1. ORGANIZATION AND PURPOSE

The National Credit Union Administration (NCUA) Central Liquidity Facility (CLF) was created by the National Credit Union Central Liquidity Facility Act (Act). The CLF is designated as a mixed-ownership Government corporation under the Government Corporation Control Act. The CLF exists within the NCUA and is managed by the NCUA Board. The CLF became operational on October 1, 1979.

The CLF was created to improve the general financial stability of credit unions by serving as a liquidity lender to credit unions experiencing unusual or unexpected liquidity shortfalls. The CLF accomplishes its purpose by lending funds, subject to certain statutory limitations, when a liquidity need arises.

The CLF is subject to various Federal laws and regulations. The CLF may not make loans to members for the purpose of expanding credit union loan portfolios. The CLF's investments are restricted to obligations of the U.S. Government and its agencies, deposits in federally insured financial institutions, and shares and deposits in credit unions. Borrowing is limited by statute to 12 times the subscribed capital stock and surplus. See Notes 6 and 8 for further information about the capital stock and the CLF's borrowing authority.

### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

**Basis of Presentation** – The CLF has historically prepared its financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP), based on standards issued by the Financial Accounting Standards Board (FASB), the private-sector standards-setting body. The Federal Accounting Standards Advisory Board (FASAB) is the standards-setting body for the establishment of GAAP with respect to the financial statements of Federal Government entities. FASAB has indicated that financial statements prepared based upon standards promulgated by FASB may also be regarded as in accordance with GAAP for those Federal entities, such as the CLF, that have issued financial statements based upon FASB standards in the past.

**Basis of Accounting** – The CLF maintains its accounting records in accordance with the accrual basis of accounting. As such, the CLF recognizes interest income on loans and investments when earned, and recognizes interest expense on borrowings when incurred. The CLF recognizes expenses when incurred. In addition, the CLF accrues and records dividends on capital stock monthly and pays dividends quarterly.

**Cash Equivalents** – Cash equivalents are highly liquid investments with original maturities of three months or less.

**Investments** – By statute, the CLF investments are restricted to obligations of the U.S. Government and its agencies, deposits in federally insured financial institutions, and shares and deposits in credit unions. All investments are classified as held-to-maturity under FASB Accounting Standards Codification (ASC) topic 320-10-25-1, *Classification of Investment Securities*, as the CLF has the intent and ability to hold these investments until maturity. Accordingly, the CLF reports investments at amortized cost. Amortized cost is the face value of the securities plus the unamortized premium or less the unamortized discount.

The CLF evaluates investment securities that are in an unrealized loss position for other-than-temporary impairment (OTTI). An investment security is deemed impaired if the fair value of the investment is less than its amortized cost. Amortized cost includes adjustments (if any) made to the cost basis of an investment for accretion, amortization, and previous OTTI. To determine whether impairment is other-than-temporary, the CLF takes into consideration whether it has the intent to sell the security.

Premiums and discounts are amortized or accreted over the life of the related held-to-maturity investment as an adjustment to yield using the effective interest method. Such amortization and accretion is included in the “investment income” line item in the Statements of Operations.

The CLF records investment transactions when they are made.

**Loans and Allowance for Loan Losses** – Loans, when made to members, are on a short-term or long-term basis. Loans are recorded at the amount disbursed and bear interest at the higher of the Federal Financing Bank Advance Rate or the Federal Reserve Bank Discount Window Primary Credit Rate. By regulation, Member *Liquidity Needs* Loans are made on a fully secured basis. The CLF obtains a security interest in the assets of the member equal to at least 110% of all amounts due. The CLF does not currently charge additional fees for its lending activities. There was one lending activity, which was fully repaid in 2019. As of December 31, 2019, there were no allowances and no write-offs. During 2018, there was no lending activity.

**Borrowings** – The CLF’s borrowings are recorded when they are received, do not hold premiums or discounts, and are carried at cost. Repayments are recorded when they are made.

**Income Taxes** – The NCUA, as a government entity, is not subject to federal, state, or local income taxes and, accordingly, no provision for income taxes is recorded for the CLF.

**Use of Estimates** – The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, as well as the disclosure of contingent assets and liabilities, if any, at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from management’s estimates.

**Commitments and Contingencies** – Liabilities for loss contingencies arising from claims, assessments, litigation, fines, and penalties and other sources are recorded when it is probable that a liability has been incurred and the amount can be reasonably estimated. Legal costs incurred in connection with loss contingencies are expensed as incurred.

**Related Parties** – The CLF exists within the NCUA and is managed by the NCUA Board. The NCUA Operating Fund (OF) provides the CLF with information technology, support services, and supplies; in addition, the NCUA OF pays the CLF’s employees’ salaries and benefits, as well as the CLF’s portion of monthly building operating costs. The allocation formula to

calculate these expenses is based on the number of full-time employees of the respective entities and the estimated amount of time the CLF employees spend performing the CLF functions.

### 3. CASH AND CASH EQUIVALENTS

The CLF's cash and cash equivalents as of December 31, 2019 and 2018 are as follows (in thousands):

	<u>2019</u>	<u>2018</u>
U.S. Treasury Overnight Investments	\$ 13,071	\$ 8,662
Deposits with U.S. Treasury	<u>1,000</u>	<u>1,000</u>
Total	<u>\$ 14,071</u>	<u>\$ 9,662</u>

U.S. Treasury securities had an initial term of less than three months when purchased.

### 4. INVESTMENTS

The carrying amount, gross unrealized holding gains, gross unrealized losses, and the fair value of held-to-maturity debt securities as of December 31, 2019 and 2018 were as follows (in thousands):

	<u>2019</u>	<u>2018</u>
Carrying Amount as of December 31,	\$ 318,528	\$ 303,321
Gross Unrealized Holding Gains	3,495	714
Gross Unrealized Holding Losses	<u>(331)</u>	<u>(3,492)</u>
Fair Value	<u>\$ 321,692</u>	<u>\$ 300,543</u>

Maturities of debt securities classified as held-to-maturity were as follows:

(Dollars in thousands)	<u>2019</u>		<u>2018</u>	
	Net Carrying Amount	Fair Value	Net Carrying Amount	Fair Value
Due in one year or less	\$ 76,409	\$ 76,309	\$ 66,026	\$ 65,626
Due after one year through five years	205,253	207,430	203,450	201,769
Due after five years through ten years	<u>36,866</u>	<u>37,953</u>	<u>33,845</u>	<u>33,148</u>
Total	<u>\$ 318,528</u>	<u>\$ 321,692</u>	<u>\$ 303,321</u>	<u>\$ 300,543</u>

The following table includes gross unrealized losses on investment securities, for which OTTI has not been recognized, in addition to the fair values of those securities, aggregated by investment classification and length of time the investments have been in a loss position, at December 31, 2019 and 2018.

(Dollars in thousands)	Losses Less than 12 Months		Losses More than 12 Months		Total	
	Unrealized Losses	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses	Fair Value
	<b>As of December 31, 2019</b>					
U.S. Treasury Securities	<u>\$ (185)</u>	<u>\$ 42,770</u>	<u>\$ (146)</u>	<u>\$ 75,410</u>	<u>\$ (331)</u>	<u>\$ 118,180</u>
<b>As of December 31, 2018</b>						
U.S. Treasury Securities	<u>\$ (84)</u>	<u>\$ 35,676</u>	<u>\$ (3,408)</u>	<u>\$ 187,603</u>	<u>\$ (3,492)</u>	<u>\$ 223,279</u>

## 5. FAIR VALUE MEASUREMENTS

The fair value of an instrument is the amount that would be received to sell an asset or would be paid to transfer a liability in an orderly transaction between market participants by the measurement date. The following methods and assumptions were used to estimate the fair value of each class of financial instruments:

**Cash and cash equivalents** – The carrying amounts for cash and cash equivalents approximate fair value.

**Investments held-to-maturity** – The CLF’s investments held-to-maturity are all comprised of U.S. Treasury Securities, for which market prices can be readily obtained. The related fair value is determined using the quoted market prices at the reporting date.

**Member Deposits** – Funds maintained with the CLF in excess of required capital amounts are recorded as member deposits. These deposits are due upon demand; therefore, carrying amounts approximate the fair value.

**Other** – Accrued interest receivable, accounts payable, stock redemption payable, and dividends payable are recorded at book values, which approximate the respective fair values because of the short maturity of these instruments.

The following table presents the carrying amounts and established fair values of the CLF's financial instruments as of December 31, 2019 and 2018. The carrying values and approximate fair values of financial instruments are as follows:

(Dollars in thousands)	2019		2018	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Cash and cash equivalents	\$ 14,071	\$ 14,071	\$ 9,662	\$ 9,662
Investments held-to-maturity	318,528	321,692	303,321	300,543
Accrued interest receivable	1,327	1,327	1,281	1,281
Accounts payable	270	270	129	129
Dividends and Interest payable	1,310	1,310	1,052	1,052
Stock redemption payable	3,196	3,196	767	767
Member deposits	5,496	5,496	3,799	3,799

## 6. CAPITAL STOCK

Membership in the CLF is open to all credit unions that purchase a prescribed amount of capital stock. The CLF capital stock is non-voting and shares have a par value of \$50. Currently, there is one subscribed form of membership—regular members which are natural person credit unions. Natural person credit unions may borrow from the CLF directly as a regular member.

In October 2013, the NCUA Board issued a final rule 12 CFR Part 741, § 741.12 “Liquidity and Contingency Funding Plans,” which requires federally insured credit unions with assets of \$250 million or more to have access to a backup federal liquidity source for emergency situations. A credit union subject to this requirement may demonstrate access to a contingent federal liquidity source by maintaining membership in the CLF, or establishing borrowing access at the Federal Reserve Discount Window.

The capital stock account represents subscriptions remitted to the CLF by member credit unions. Regular members' required subscription amounts equal one-half of one percent of their paid-in and unimpaired capital and surplus, one-half of which is required to be remitted to the CLF. Member credit unions are required to hold the remaining one-half in assets subject to call by the NCUA Board. These unremitted subscriptions are not reflected in the CLF's financial statements. Subscriptions are adjusted annually to reflect changes in the member credit unions' paid-in and unimpaired capital and surplus. Dividends are non-cumulative, and are declared and paid on required capital stock.

A member of the CLF whose capital stock account constitutes less than 5% of the total capital stock outstanding may withdraw from membership in the CLF six months after notifying the NCUA Board of its intention. A member whose capital stock account constitutes 5% or more of the total capital stock outstanding may withdraw from membership in the CLF two years after notifying the NCUA Board of its intention. As of December 31, 2019, the CLF had three member withdrawal requests pending. As of December 31, 2018, the CLF had one member withdrawal request pending.

The required capital stock is redeemable upon demand by the members, subject to certain conditions as set out in the Act and NCUA regulations; however, the stock is not deemed “mandatorily redeemable” as defined in FASB ASC 480-10-25-7, *Mandatorily Redeemable Financial Instruments*; therefore capital stock is classified in permanent equity.

The CLF’s capital stock accounts were composed of the following as of December 31, 2019 and 2018 (in thousands, except share data):

	2019		2018	
	Shares	Amounts	Shares	Amounts
Regular members	5,773,856	\$ 288,693	5,491,692	\$ 274,584

Dividends on capital stock are declared based on available earnings and the dividend policy set by the NCUA Board. Dividends are accrued monthly based on prior quarter-end balances and paid on the first business day after the quarter-end. The dividend rates paid on capital stock for regular members change quarterly. For 2019, the dividend rates were \$0.75 per share for the first and second quarters, and \$0.875 per share for the third and fourth quarters. For 2018, the dividend rates were \$0.50 per share for the first quarter, \$0.625 per share for the second and third quarters, and \$0.75 per share for the fourth quarter.

## 7. MEMBER DEPOSITS

Member deposits represent amounts remitted by members over and above the amount required for membership. Interest is paid on member deposits at a rate equivalent to the dividend rate paid on required capital stock.

## 8. BORROWING AUTHORITY

The CLF is authorized by statute to borrow, from any source, an amount not to exceed 12 times its subscribed capital stock and surplus. As of December 31, 2019 and 2018, the CLF’s statutory borrowing authority was \$7.3 billion and \$7.0 billion, respectively.

As described above, the borrowing authority amounts are referenced to subscribed capital stock and surplus of the CLF. The CLF borrowing arrangement is exclusively with the Federal Financing Bank (FFB). The NCUA maintains a note purchase agreement with FFB on behalf of the CLF with a current maximum principal amount of \$2.0 billion. Under the terms of its agreement, the CLF borrows from FFB as needed. Under terms prescribed by the note purchase agreement, the CLF executes promissory notes in amounts as necessary, the aggregate amount of which may not exceed its statutory borrowing authority, and renews them annually. Advances made under the current promissory notes can be made no later than March 31, 2020. During 2019, the CLF borrowed \$1.0 million from FFB under one loan agreement, which the CLF then loaned to a member credit union. In 2019, the member credit union repaid the CLF for the full amount of the loan. The CLF subsequently repaid the loan to FFB in 2019. During 2018, the CLF did not borrow any funds from FFB.

## **9. RELATED PARTY TRANSACTIONS**

The NCUA OF pays the salaries and related benefits of the CLF's employees, as well as the CLF's portion of building and operating costs. Reimbursements of these expenses are determined by applying a ratio of the CLF full-time equivalent employees to the NCUA total, with settlement and payment occurring quarterly. All other CLF reimbursement expenses are paid annually. The total amount charged by the NCUA was approximately \$542.4 thousand and \$544.8 thousand, respectively, for December 31, 2019 and 2018. Accounts payable includes approximately \$193.1 thousand and \$102.9 thousand, respectively, for December 31, 2019 and 2018, due to the NCUA OF for services provided.

## **10. SUBSEQUENT EVENTS**

Subsequent events have been evaluated through February 14, 2020, which is the date the financial statements were available to be issued, and management determined that there are no other items to disclose.

## Independent Auditors' Report

Inspector General, National Credit Union Administration and  
the National Credit Union Administration Board:

### Report on the Financial Statements

We have audited the accompanying financial statements of the National Credit Union Administration Community Development Revolving Loan Fund (the CDRLF), which comprise the balance sheets as of December 31, 2019 and 2018, and the related statements of operations, changes in fund balance, and cash flows for the years then ended, and the related notes to the financial statements.

#### *Management's Responsibility for the Financial Statements*

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### *Auditors' Responsibility*

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America, in accordance with the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, and in accordance with Office of Management and Budget (OMB) Bulletin No. 19-03, *Audit Requirements for Federal Financial Statements*. Those standards and OMB Bulletin No. 19-03 require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### *Opinion*

In our opinion, the financial statements referred to above presents fairly, in all material respects, the financial position of the National Credit Union Administration Community Development Revolving Loan Fund as of December 31, 2019 and 2018, and its operations, changes in fund balance and cash flows for the years then ended in accordance with U.S. generally accepted accounting principles.

## **Other Reporting Required by Government Auditing Standards**

### *Internal Control over Financial Reporting*

In planning and performing our audit of the financial statements as of and for the year ended December 31, 2019, we considered the CDRLF's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the CDRLF's internal control. Accordingly, we do not express an opinion on the effectiveness of the CDRLF's internal control. We did not test all internal controls relevant to operating objectives as broadly defined by the *Federal Manager's Financial Integrity Act of 1982*.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

### *Compliance and Other Matters*

As part of obtaining reasonable assurance about whether the CDRLF's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, and contracts, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* or OMB Bulletin No. 19-03.

### *Purpose of the Other Reporting Required by Government Auditing Standards*

The purpose of the communication described in the Other Reporting Required by *Government Auditing Standards* section is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the CDRLF's internal control or compliance. Accordingly, this communication is not suitable for any other purpose.

# NATIONAL CREDIT UNION ADMINISTRATION COMMUNITY DEVELOPMENT REVOLVING LOAN FUND

## NOTES TO THE FINANCIAL STATEMENTS For the Years Ended December 31, 2019 and 2018

---

### 1. ORGANIZATION AND PURPOSE

The Community Development Revolving Loan Fund (the CDRLF) for credit unions was established by an act of Congress (Public Law 96-123, November 20, 1979) to stimulate economic development in low-income communities. The National Credit Union Administration (the NCUA) and the Community Services Administration (CSA) jointly adopted Part 705 of the NCUA Rules and Regulations, governing administration of the CDRLF, on February 28, 1980.

Upon the dissolution of CSA in 1983, administration of the CDRLF was transferred to the Department of Health and Human Services (HHS). From 1983 through 1990, the CDRLF was dormant.

The Community Development Credit Union Transfer Act (Public Law 99-609, November 6, 1986) transferred the CDRLF administration back to the NCUA. The NCUA Board adopted amendments to Part 705 of the NCUA Rules and Regulations on September 16, 1987, and began making loans/deposits to participating credit unions in 1990.

The CDRLF stimulates economic activities in the communities served by low-income designated federally-chartered and state-chartered credit unions through its loan and technical assistance grant program. These financial awards are appropriated by Congress and are intended to support credit unions in their efforts to provide basic financial services to residents in their communities, enhance their capacity to better serve their members and respond to emergencies. The policy of the NCUA is to revolve loans to eligible credit unions as often as practical to maximize the economic benefits achieved by participating credit unions.

### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

**Basis of Presentation** – The CDRLF prepares its financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP), based on standards issued by the Financial Accounting Standards Board (FASB), the private sector standards setting body. The Federal Accounting Standards Advisory Board (FASAB) is the standards setting body for the establishment of GAAP with respect to the financial statements of federal entities. FASAB has indicated that financial statements prepared based upon standards promulgated by FASB may also be regarded as in accordance with GAAP for federal entities that have issued financial statements based upon FASB standards in the past.

**Basis of Accounting** – The CDRLF maintains its accounting records in accordance with the accrual basis of accounting and recognizes income when earned and expenses when incurred. In

addition, the CDRLF records investment transactions when they are executed and recognizes interest on investments when it is earned.

**Use of Estimates** – The preparation of the financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the following:

- reported amounts of assets and liabilities;
- the disclosure of contingent assets and liabilities, if any, at the date of the financial statements; and
- the reported amounts of revenues and expenses during the reporting period.

**Cash Equivalents** – Cash equivalents are highly liquid investments with original maturities of three months or less. The Federal Credit Union Act permits the CDRLF to make investments in United States Treasury securities. All investments in 2019 and 2018 are cash equivalents and are stated at cost, which approximates fair value.

**Loans Receivable and Allowance for Loan Losses** – Since inception, Congress has appropriated a total of \$13.4 million for the CDRLF revolving loan program. The CDRLF awards loan amounts of up to \$500,000 to participating credit unions based on financial condition. These loans have a maximum term of five years and are subject to the interest rate provided by the CDRLF Loan Interest Rate policy, which is reviewed annually. Effective March 29, 2019, the CDRLF set the interest rate to 1.50%, an increase from the previous rate of 0.60% set on May 1, 2014. Interest is to be paid on a semiannual basis beginning six months after the initial distribution of the loan and every six months thereafter until maturity. Principal is to be repaid on the maturity date of the loan.

Loans are initially recognized at their disbursed amount, and subsequently at amortized cost, net of the allowance for loan losses, if any. A provision for loans considered to be uncollectible is charged to the Statement of Operations when such losses are probable and reasonably estimable. Provisions for significant uncollectible amounts are credited to an allowance for loan losses, while de minimis amounts are directly charged-off. Management continually evaluates the adequacy of the allowance for loan losses based upon prevailing circumstances and an assessment of collectability risk of the total loan portfolio as well as historical loss experience. Accrual of interest is discontinued on nonperforming loans when management believes collectability is doubtful.

**Technical Assistance Grants** – The CDRLF issues technical assistance grants to low-income designated credit unions using multiyear appropriated funds and income generated from the revolving fund. Grant income and expense is recognized when the CDRLF makes a formal commitment to the recipient credit union for technical assistance grants. The CDRLF reviews long-term unspent technical assistance grant awards (e.g. outstanding awards past the period of eligibility) and takes formal steps to cancel expired grants.

**Fair Value Measurements** – Cash and cash equivalents, loans receivable, interest receivable, and accrued technical assistance grants are recorded at book value, which approximates estimated fair value.

**Related Party Transactions** – The NCUA, through the Operating Fund (OF), provides certain general and administrative support to the CDRLF, including personnel costs such as pay and benefits as well as other costs which include but are not limited to telecommunications, supplies, printing, and postage. The value of these contributed services is not charged to the CDRLF.

**Revenue Recognition** – Appropriation revenue is recognized as the related technical assistance grant expense is recognized. Total appropriation revenues will differ from total technical assistance grant expenses because technical assistance grants are funded by both appropriations and income generated from the revolving fund. Interest on cash equivalents and interest on loans is recognized when earned.

**Income Taxes** – The NCUA, as a government entity, is not subject to federal, state, or local income taxes.

**Commitments and Contingencies** – Liabilities for loss contingencies arising from claims, assessments, litigation, fines and penalties, and other sources are recorded when it is probable that a liability has been incurred and the amount can be reasonably estimated. Legal costs incurred in connection with loss contingencies are expensed as incurred.

### 3. CASH AND CASH EQUIVALENTS

The CDRLF’s cash and cash equivalents as of December 31, 2019 and 2018 are as follows (in thousands):

	<u>2019</u>	<u>2018</u>
Deposits with U.S. Treasury	\$ 4,868	\$ 3,747
U.S. Treasury Overnight Securities	8,820	5,097
Total	<u>\$ 13,688</u>	<u>\$ 8,844</u>

### 4. LOANS RECEIVABLE

Loans receivable as of December 31, 2019 and 2018 consisted of the following (in thousands):

	<u>2019</u>	<u>2018</u>
Balance as of the Beginning of the Year	\$ 9,705	\$ 8,115
Loans Disbursed	1,000	2,000
Loan Repayments	<u>(4,550)</u>	<u>(410)</u>
Loans Receivable as of the End of the Year	<u>6,155</u>	<u>9,705</u>
Allowance for Loan Losses as of the End of the Year	<u>(125)</u>	<u>-</u>
Loans Receivable, Net, as of the End of the Year	<u>\$ 6,030</u>	<u>\$ 9,705</u>

Loans outstanding as of December 31, 2019 are scheduled to be repaid as follows (in thousands):

<b>Year</b>	<b>Amount</b>
2020	1,500
2021	1,155
2022	500
2023	2,000
2024	<u>1,000</u>
Loans Outstanding	\$ 6,155
Allowance for Loan Losses	<u>(125)</u>
Total Loans Receivable, Net	<u><u>\$ 6,030</u></u>

The CDRLF has the intent and ability to hold its loans to maturity and anticipates realizing the carrying amount in full.

## **5. TECHNICAL ASSISTANCE GRANTS**

The CDRLF administers a technical grant assistance program to fulfill its mission to stimulate economic growth in low-income communities. These grants are typically provided on a reimbursement basis to ensure that grant awards are appropriately used.

### *Multiyear Funds*

The CDRLF grant program is primarily funded through an annual appropriation from Congress. Multiyear funds can be obligated to participating credit unions for up to two years. Canceled technical assistance grants from previously used multiyear funds are returned to the U.S. Treasury and credited back to the original appropriated fund from which they were awarded.

In 2019, the CDRLF received a \$2.0 million appropriation from Congress for FY 2019. This multiyear appropriation is available for obligation through September 30, 2020. As of December 31, 2019, the CDRLF has obligated \$2.0 million of the multiyear funds. For the period ended December 31, 2019, the CDRLF canceled \$339.6 thousand of technical assistance grants awarded from multiyear funds.

In 2018, the CDRLF received a \$2.0 million appropriation from Congress for FY 2018. This multiyear appropriation was available for obligation through September 30, 2019. As of December 31, 2018, the CDRLF obligated \$2.0 million of the multiyear funds. For the year ended December 31, 2018, the CDRLF canceled \$103.4 thousand of technical assistance grants awarded from multiyear funds.

Upon cancellation, \$33.0 thousand from the FY 2013 appropriation and \$1.3 thousand from the FY 2012 appropriation was returned to the U.S. Treasury in 2019 and 2018, respectively.

### *Revolving Fund*

The CDRLF can also award technical assistance grants from the revolving fund. These grants are recognized as Technical Assistance Grants expense when the funds are obligated to participating credit unions. If a grant awarded from the revolving fund is canceled, the funds are recognized as Canceled Technical Assistance Grants.

As of December 31, 2019, the CDRLF awarded \$18.1 thousand in technical assistance grants from the revolving fund. In 2019, the CDRLF canceled \$0.8 thousand of technical assistance grants awarded from the revolving fund.

As of December 31, 2018, the CDRLF awarded in \$74.4 thousand in technical assistance grants from the revolving fund. In 2018, the CDRLF canceled \$10.3 thousand of technical assistance grants awarded from the revolving fund.

## **6. CONCENTRATION OF CREDIT RISK**

The CDRLF has the authority to provide loans to low-income designated credit unions. At the discretion of the NCUA, participating credit unions can record an awarded loan as a nonmember deposit, which qualifies up to \$250,000 of the loan proceeds to be insured by the National Credit Union Share Insurance Fund (NCUSIF). Loan balances that exceed \$250,000 are uninsured and pose a potential credit risk to the CDRLF. The aggregate total of uninsured loans was \$1.6 million and \$3.6 million as of December 31, 2019 and 2018, respectively. The decrease in FY 2019 is primarily due to loan maturities of \$2.0 million in loan amounts over \$250,000.

## **7. FAIR VALUE MEASUREMENTS**

The fair value of an instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The following table presents the carrying values and established fair values of the CDRLF's financial instruments as of December 31, 2019 and 2018 (in thousands):

	<b>2019</b>		<b>2018</b>	
	<b>Carrying Amount</b>	<b>Estimated Fair Value</b>	<b>Carrying Amount</b>	<b>Estimated Fair Value</b>
Assets				
Cash and Cash Equivalents	\$ 13,688	\$ 13,688	\$ 8,844	\$ 8,844
Loans Receivable, Net	6,030	6,119	9,705	9,771
Interest Receivable	10	10	14	14
Liabilities				
Accrued Technical Assistance Grants	3,803	3,803	3,030	3,030

The following methods and assumptions were used to estimate the fair value of each class of financial instrument:

**Loans Receivable** – Fair value is estimated using an income approach by separately discounting each individual loan’s projected future cash flow. The discount rate reflects the pricing and is commensurate with the risk of the loans to the CDRLF. Loans are valued annually on December 31.

**Other** – The carrying amounts for cash and cash equivalents, interest receivable, and accrued technical assistance grants approximate fair value.

## 8. RELATED PARTY TRANSACTIONS

The NCUA, through the OF, supports the administration of programs under the CDRLF by paying related personnel costs such as pay and benefits as well as other costs which include but are not limited to telecommunications, supplies, printing, and postage.

For the years ended December 31, 2019 and 2018, the NCUA, through the OF, provided the following unreimbursed administrative support to the CDRLF (in thousands):

	<u>2019</u>	<u>2018</u>
Personnel	\$ 571	\$ 504
Other	<u>59</u>	<u>55</u>
Total	<u>\$ 630</u>	<u>\$ 559</u>

## 9. SUBSEQUENT EVENTS

Subsequent events have been evaluated through February 14, 2020, which is the date the financial statements were available to be issued. Management determined there were no significant items to be disclosed as of December 31, 2019.
