#### ***At Foreclosure***

Initially record the assets at fair value (less costs to sell) at the date of foreclosure or repossession. This fair value (less cost to sell) becomes the “cost”, or carrying amount, of the foreclosed or repossessed asset. The amount, if any, by which the recorded amount of the loan exceeds the fair value (less costs to sell) of the asset is a loss, which must be charged off to the allowance *at the time of the foreclosure or repossession*.

#### ***Subsequent to Foreclosure***

Re-value the assets periodically to the lower of carrying amount or fair value (less costs to sell) through a separate valuation account, not the allowance. Changes in the valuation allowance are included in net expenses from foreclosed and repossessed assets.

If a repossessed or foreclosed long-lived asset is not *sold shortly* after it is received, any declines in value after foreclosure and any gain or loss from the sale or disposition of the asset shall *not* be reported as a loan loss or recovery and shall *not* be debited or credited to the ALLL.

Adjustments to maintain held for sale foreclosed and repossessed assets at fair value, less costs to sell, should be reported as Miscellaneous Operating Expenses. Any gain or loss upon the disposition of fixed assets should be reported as Gain (Loss) on Disposition of Fixed Assets.

Regardless of the valuation, foreclosed and repossessed property the credit union intends to sell should be transferred to Foreclosed and Repossessed Property and reported on this line.

**23. Employee Benefit Member Shares and Deposits (Account 633)**

**NCUA CALL REPORT FORM – PAGE 3**  
**STATEMENT OF FINANCIAL CONDITION**

Any shares of an employee benefit plan in an insured credit union shall be insured on a “pass-through” basis, in an amount up to the SMSIA for the non-contingent interest of each plan participant, in accordance with [§745.9-2](#) of the NCUA regulations. An insured credit union that is not “well capitalized” or “adequately capitalized”, as those terms are defined in [§1787\(k\)\(4\)](#) of the Federal Credit Union Act, may not accept employee benefit plan deposits. Employee benefit plans for member shares and deposits may consist of Keogh accounts established by an employer as part of an employee benefit plan.

**24. Employee Benefit Nonmember Shares and Deposits (Account 634)**

The same insurance coverage and legal restrictions apply to retirement and other employee benefit plan accounts for nonmember shares as stated above for member shares. Employee benefit plans for nonmember shares and deposits may consist of Keogh accounts established by an employer as part of an employee benefit plan.

**25.529 Plan Member Deposits (Account 635)**

Funds owned by a principal and deposited in one or more accounts in the name or names of agents or nominees shall be added to any individual account of the principal and insured up to the limit of \$250,000 per eligible account in the aggregate for each primary account holder as outlined in [§745.3](#) of the NCUA regulations. Deposits are restricted to regular shares, money market shares, or share certificates.

**26. Non-dollar Denominated Shares and Deposits (Account 636)**

Report the total balance of accounts denominated in a foreign currency. An insured credit union may accept shares denominated in a foreign currency. See the NCUA regulations [§745.7](#) for more information on shares denominated in a foreign currency

**27. Health Savings Accounts (Account 637)**

[Section 724.1](#) of the NCUA regulations permits Federal credit unions to act as trustees and custodians of certain tax-advantaged savings plans. A federal credit union is authorized to act as trustee or custodian, and may receive reasonable compensation for so acting, under any written trust instrument or custodial agreement created or organized in the United States and forming part of a tax-advantaged savings plan which qualifies for specific tax treatment for its members or groups of its members, provided the funds are invested in share accounts or share certificate accounts of the Federal Credit Union. These services may include acting as a trustee or custodian for health savings accounts. Funds owned by each member shall be added to any other regular share and insured up to the limit of \$250,000 per eligible account in the aggregate for each primary account holder as outlined in [§745.3](#) of the NCUA regulations.

**28. Dollar Amount of Share Certificates equal to or greater than \$100,000 (Account 638)**

(Excluding brokered share certificates participated out by the broker in shares of less than \$100,000).

Report the total amount of individual share certificates equal to or greater than \$100,000. For example, a member has two share certificate accounts with individual balances of \$80,000 and \$120,000 that add to an aggregate balance of \$200,000. The Federal Reserve has directed the NCUA to have credit unions list only the individual balances equal to or greater than \$100,000. In this example, the credit union would report \$120,000.

**NCUA CALL REPORT FORM – PAGE 3**  
**STATEMENT OF FINANCIAL CONDITION**

Do not include IRA share certificates and brokered share certificates participated out by a broker in shares of less than \$100,000. This information enables the Federal Reserve to construct M2 (the study of total money supply) accurately.

**29.Dollar Amount of IRA/Keogh Accounts equal to or greater than \$100,000 (Account 639)**

Report the total amount for individual IRA/Keogh Accounts equal to or greater than \$100,000 only. For example, a member has two IRA/ Keogh accounts with individual balances of \$80,000 and \$120,000 that add to an aggregate balance of \$200,000. The Federal Reserve has directed the NCUA to have credit unions report only the individual balances equal to or greater than \$100,000; so, in this case, the credit union would report \$120,000. This information enables the Federal Reserve to construct M2 (the study of total money supply) accurately.

**30.Dollar Amount of Share Drafts Swept to Regular Shares or Money Market Accounts as Part of a Sweep Program (Account 641)**

Report the dollar amount the credit union actually transferred from transaction accounts to nontransaction accounts to qualify the credit union as having a legitimate sweep program with the Federal Reserve.

**Deposit Account Sweeps Affecting Transaction and Nontransaction Accounts:** Some credit unions have established “retail sweep arrangements” or “retail sweep programs.” In a retail sweep arrangement, a credit union transfers funds between member’s transaction account(s) and that member’s nontransaction account(s) (usually regular share savings account(s)) by means of preauthorized or automatic transfers. The Call Report should reflect the position of the swept funds at the end of the reporting period. **The amount reported should match the reported amount on the Federal Reserve form FR 2900 for the quarter-end day.**

There are two key criteria for retail sweep programs to comply with the [Federal Reserve Regulation D](#) definitions of “transaction account” and “savings deposit:”

1. A depository institution must establish by agreement with its transaction account member two legally separate accounts: a transaction account (such as a share draft account) and a share savings deposit account, including those sometimes called a “money market deposit account;”
2. The swept funds must actually be moved from the member’s transaction account to the member’s share savings deposit account on the official books and records of the credit union as of the close of business on the day(s) on which the depository institution intends to report the funds in question as share savings deposits and not transaction accounts, and vice versa. In addition to actually moving the member’s funds between accounts and reflecting this movement at the account level:
  - a) If the credit union’s general ledger is sufficiently disaggregated to distinguish between transaction and savings deposit accounts, the aforementioned movement of funds between the member’s transaction account and share savings deposit account must be reflected on the general ledger.
  - b) If the credit union’s general ledger is not sufficiently disaggregated, the distinction may be reflected in supplemental records or systems, but only if such supplemental records or systems constitute official books and records of the

**NCUA CALL REPORT FORM – PAGE 3**  
**STATEMENT OF FINANCIAL CONDITION**

institution and are subject to the same prudent managerial oversight and controls as the general ledger.

If either of these criteria is not met, all swept funds must continue to be reported as transaction accounts, both for purposes of the Call Report and of [FR 2900](#) deposit reports. Both criteria must be met in order to report the nontransaction account component of a retail sweep program as a nonreservable share savings deposit account.

A retail sweep program may not exist solely in records or on systems that do not constitute official books and records of the depository credit union and that are not used for any purpose other than generating its Report of Transaction Accounts, Other Deposits and Vault Cash (FR 2900) for submission to the Federal Reserve.

**31.Dollar Amount of Commercial Share Accounts (Account 643)**

Report the total dollar amount of commercial deposit accounts. Organizations (corporations, partnerships, associations, charities, clubs) and sole proprietorships may open accounts using a Taxpayer Identification Number (TIN), assumed name, trade name, or “Doing Business As” (DBA) name. **Do not include trust accounts.**

**32.Negative Shares Included in All Other Unsecured Loans/Lines of Credit on Page 6 (Account 644)**

Report the dollar amount of share accounts with negative balances included in all other unsecured loans/lines of credit (Account 397).

**NCUA CALL REPORT FORM – PAGE 4**  
**STATEMENT OF FINANCIAL CONDITION**

---

A credit union that sponsors a single-employer defined benefit postretirement plan, such as a pension plan or health care plan, must recognize the funded status of each such plan on its balance sheet (an over-funded plan is recognized as an asset while an under-funded plan is recognized as a liability).

Initially, the postretirement plan amounts recognized on the credit union's balance sheet before applying the standard must be adjusted to recognize gains or losses, prior service costs or credits, and transition assets or obligations that have not yet been included in the net periodic benefit cost of its plans. These adjustment amounts are recognized directly in equity as components of other comprehensive income. Thereafter, a credit union must recognize certain gains and losses and prior service costs or credits that arise during each reporting period as a component of other comprehensive income (OCI).

Postretirement plan amounts carried in OCI are adjusted as they are subsequently recognized in earnings as components of the plan's net periodic benefit cost. Credit unions should consult their independent accountant for further guidance in applying this accounting standard.

---

These examples are not all inclusive. Items required by accounting standards to be reported as direct adjustments to paid-in capital, retained earnings, or other non-income equity accounts are **not** to be included as components of comprehensive income.

***LOANS & LEASES***

---

Report the interest rate, number, and outstanding balance of loans and leases. If you have early adopted ASC Topic 326 – Financial Instruments, Credit Losses (CECL), report the interest rate, number, and amortized cost of loans and leases. The Number of Loans (Account 025A1) and Amount (Account 025B1) reported on Item 14 must equal the number (Account 025A) and Amount (Account 025B) reported on Page 2, Item 16. Please complete Schedule A - Specialized Lending, if your credit union has any indirect loans, real estate loans, participation loans, commercial loans, member business loans, troubled debt restructured, or purchased credit impaired loans outstanding; or purchased or sold loans or participations year-to-date; or if the credit union originated any real estate, commercial, or member business loans during the reporting period.

---

**Note** – Loans should be reported in Schedule A, Sections 2 through 7 without regard for the channel (direct or indirect, purchased or participation) used to obtain the loan. It is possible for a single loan to be reported in multiple sections of Schedule A, including Section 1 and Section 3.

---

- **Collateral Codes.** Report loans by collateral code. For example, if a new or used vehicle is secured by real estate (for example a home equity loan), include it with real estate loans. Report the portion of any loan participation or purchase that remains on the credit union's balance sheet according to the applicable collateral code.
- **Interest Rates.** Report loan interest rates being offered as of the reporting period for each loan category. Report the actual rate (report 6.5 for 6.5%). If more than one rate applies, report the most common rate in each category.
- **For each loan category, report only those loans that have an outstanding balance.** Loans reported should be shown net of loan origination fees (costs) which shall be recognized over the life of the related loan as an adjustment of yield. Loan fees, certain direct loan origination costs, and purchase premiums and discounts on loans shall be recognized as an adjustment of yield, generally by the interest method, based on the contractual terms of the loan.
- **Loans as hedged items.** If loans are part of a hedge accounting designation, the carrying value of the respective loans should be adjusted in accordance with ASC Topic 815.
- **Participation Loans.** Report the number of individual loans in each pool—not the number of pools. Exclude purchased participations not qualifying for true sales accounting under GAAP (e.g., participations purchased with substantial recourse), as these loans will still be reflected on the seller's balance sheet. The purchasing credit union should report participations not qualifying for true sales accounting as Other Assets.
- **Commercial Loans.** Loans that would be considered commercial loans except for the loan amounts to associated borrowers being under \$50,000 should be reported as a consumer loan by definition and reported according to the underlying collateral.

**NCUA CALL REPORT FORM – PAGE 6**  
**LOANS AND LEASES**

- **Loan secured by more than one 1- to 4-family residential properties.** A single loan to a borrower or associated borrowers that is secured by more than one 1- to 4-family residential properties and the aggregate net member business loan balance or the outstanding balances plus unfunded commitments less any portion secured by shares in the credit union is equal to or greater than \$50,000, should be reported as a member business loan AND commercial loan except loans to non-members should only be reported as a commercial loan.

## **Non-Commercial Loans/Lines of Credit**

### **1. Unsecured Credit Card Loans (Accounts 521, 993, and 396)**

Include the rate, number, and outstanding balance or amortized cost of credit card loans. Unused loan commitments must be reported in the Off-Balance Sheet Commitments section of the Liquidity, Commitments and Sources page.

### **2. Payday Alternative Loans (PALs I and II) (FCUs Only)(Accounts 522A, 994A, and 397A)**

Federal Credit Unions will report the interest rate, and aggregate number and dollar amount of all [PALs I](#) and [PALs II](#) loans granted under [§701.21\(c\)\(7\)\(iii\) and \(iv\)](#) of the NCUA regulations. Do not include these loans with All Other Unsecured Loans/Lines of Credit. State-Chartered credit unions will report similar loans with All Other Unsecured Loans/Lines of Credit.

---

NCUA amended its general lending rule to enable FCUs to offer short-term, small amount loans as a viable alternative to predatory payday loans. This amendment permits FCUs to charge a higher interest rate for a PALs loan than is permitted under the general lending rule, but imposes limitations on the permissible term, amount, and fees associated with PALs I and II loans.

---

### **3. Non-Federally Guaranteed Student Loans (Accounts 595A, 963A, and 698A)**

Report the rate, number, and dollar amount of non-federally guaranteed, or private, student loans. Unused loan commitments must be reported in the Off-Balance Sheet Commitments section of the Liquidity, Commitments and Sources page.

Report guaranteed student loans such as Stafford, Perkins, PLUS, and Consolidation loans, granted prior to July 1, 2010, as All Other Secured Non-Real Estate Loans/Lines of Credit (Accounts 595B, 963C, and 698C).

Also report government guaranteed student loans on the line labeled Government Guaranteed Non-Commercial Loans (Accounts LN0053, LN0054, and LN0055).

### **4. All Other Unsecured Loans/Lines of Credit (Accounts 522, 994, and 397)**

Report the rate, number, and dollar amount of outstanding unsecured loans and lines of credit, other than credit card loans that are not defined as commercial loans. Typically, this includes

**NCUA CALL REPORT FORM – PAGE 6**

signature loans. Include all Small Business Administration Paycheck Protection Program loans reported on lines 18.a.1 and 18.a.2 below. Also, report overdrawn share accounts of all types, other than commercial share accounts that qualify as a commercial loan, regardless of the existence of an overdraft protection program for share draft accounts. Overdrawn commercial share accounts that qualify as a commercial loan are reported in Accounts 526, 900P, and 400P. Unused loan commitments must be reported in the Off-Balance Sheet Commitments section of the Liquidity, Commitments and Sources page.

**5. New Vehicle Loans (Accounts 523, 958, and 385)**

Report the rate, number, and dollar amount of new vehicle loans, where a new vehicle is pledged as security and manufactured for household use per NCUA regulations §723.2. Loans secured by ATVs, RVs, and boats should not be reported on this line, but included in the All Other Secured Non-real Estate Loans/Lines of Credit (Accounts 595B, 963C, and 698C) item of the Loans & Leases section of the call report.

**6. Used Vehicle Loans (Accounts 524, 968, and 370)**

Include the rate, number, and dollar amount of used vehicle loans, where a used vehicle is pledged as security and manufactured for household use per NCUA regulations §723.2. Loans secured by ATVs, RVs, and boats should not be reported on this line, but included in the All Other Secured Non-real Estate Loans/Lines of Credit line of the Loans & Leases section of the call report.

**7. Leases Receivable (Accounts 565, 954, and 002)**

Include the rate, number, and dollar amount of outstanding direct financing leases as defined by GAAP (credit union is lessor). Credit unions that lease personal property such as vehicles to members make direct financing leases. Types of leases other than direct lease are rare in credit unions.

An indirect lease where the credit union is not the lessor is considered a leveraged lease and should be reported in the appropriate loan category.

**8. All other Secured Non-Real Estate Loans/Lines of Credit (Accounts 595B, 963C, and 698C)**

Include the rate, number, and dollar amount of all secured consumer loans secured by anything other than real estate and not reported elsewhere on the Loans & Leases section of the call report. This may include the following:

- fully share-secured loans;
- loans secured by ATVs, RVs, and boats;
- loans financing the disposal of non-real estate credit union property to nonmembers; and,
- secured commercial purpose loans which do not meet the definition of commercial loan per NCUA regulations §723.2 and are not secured by real estate. The common reason a commercial purpose loan would not qualify as a commercial loan is because the loans outstanding to associated borrowers are less than \$50,000.

Unused loan commitments must be reported in the Off-Balance Sheet Commitments section of the Liquidity, Commitments and Sources page.

**NCUA CALL REPORT FORM – PAGE 6**  
**LOANS AND LEASES**

Unused loan commitments must be reported in the Off-Balance Sheet Commitments section of the Liquidity, Commitments and Sources page.

### **CARES Act of 2020 Loan Modifications**

Section 4013 of the CARES Act suspended the GAAP standards to eliminate the burden of tracking and reporting [Troubled Debt Restructured](#) (TDR) loans.

For a loan to be modified under Section 4013 of the CARES Act, **all these requirements must be true:**

- The loan had to exist prior to December 31, 2019
- The loan could not be more than 30 days past due as of December 31, 2019
- The loan modification request must be made explicitly due to COVID-19 (illness, job loss, temporary shutdowns, etc.)
- The loan modification must have been executed between March 1, 2020, and the earlier of (A) 60 days after the date of termination of the national emergency concerning the COVID-19 outbreak declared by the President on March 13, 2020, under the National Emergencies Act or (B) January 1, 2022.

Additionally, Section 4013 reporting is applicable for the term of the loan modification. Loan modifications include forbearance, an interest rate modification, and any other similar arrangement that defers or delays the payment of principal or interest. Once the term of a Section 4013 eligible loan modification ends, credit unions should no longer report the loan in CV0001 and CV0002.

**Example of a Section 4013 Loan Modification:** A credit union member's job site shuts down due to a COVID-19 outbreak and causes a financial hardship for the member. The member contacts the lending credit union and requests some type of forbearance or modification on a loan that existed prior to December 31, 2019 (and was not more than 30 days past due on December 31, 2019). At the credit union's discretion, they grant a Section 4013 loan modification for the member. In normal economic times, this type of loan modification would have been reported as a TDR, but due to the CARES Act, these specific Section 4013 loan modifications are not reported as TDRs. These Section 4013 loan modifications are to be reported in CV0001 and CV0002.

**NCUA CALL REPORT FORM – PAGE 7**  
**MISCELLANEOUS**

- B. Transfers that would qualify as remittance transfers under subpart B of Regulation E (12 CFR § 1005.30(e)) but that are excluded from that definition only because the credit union is not providing those transfers in the normal course of its business.

A “remittance transfer provider” is any person that provides remittance transfers for a consumer in the normal course of its business, regardless of whether the consumer holds an account with such person. *See* 12 CFR § 1005.30(f) and related commentary for the full definition and examples.

DELINQUENT LOAN INFORMATION**

**NCUA FORM 5300 - PAGES 8 and 9**  
***REPORTING DELINQUENT LOANS***

---

Report the total outstanding loan balance and number of **all** delinquent loans and leases by collateral type on page 8 and report additional delinquency information on page 9, if applicable. All delinquent loans and leases include loans and leases reported by the credit union and serviced by outside processors (e.g., real estate, student loans, etc.) and loans held on the balance sheet of wholly-owned CUSOs.

- Do not include either:
  - 1) Loans already written down to fair value (where the difference between book value and fair value has been charged-off against the allowance) through a "decision to sell" and/or otherwise transferred to a "loans held for sale" classification; or
  - 2) Any loans for which the credit union has already obtained physical possession of the underlying collateral (automobiles, boats, real estate), regardless of whether formal foreclosure or repossession proceedings have been instituted against the borrower. The credit union should write-down such loans to the fair value of the collateral, less costs to sell. Property the credit union intends to sell should be transferred to "Foreclosed and Repossessed Assets."
- The [past due](#) status of purchased credit impaired loans acquired in business combinations, or otherwise purchased, should be determined in accordance with each loan's contractual repayment terms. However, the dollar amount reported in the appropriate delinquency category on pages 8 and 9 should reflect the credit union's recorded investment value, as included in the Loans & Leases section of the Statement of Financial Condition.
- The [past due](#) status of troubled debt restructured (TDR) loans will be calculated consistent with loan contract terms, including amendments made to loan terms through a formal restructure. Credit unions may consider a partial payment equivalent to 90 percent or more of the contractual payment as a full payment when computing the past due status on "[consumer credit](#)."

---

**Note** - Regulatory reporting of TDR loans is as defined in GAAP, and NCUA does not intend through this data collection to change the Financial Accounting Standards Board's (FASB's) definition of TDR in any way.

---

On pages 8 and 9, include all TDRs that meet the GAAP criteria for TDR reporting, without the application of materiality threshold exclusions based on scoping or reporting policy elections of credit union preparers or their auditors.

ADDITIONAL DELINQUENCY INFORMATION

**NCUA FORM 5300 - PAGE 9**  
***ADDITIONAL DELINQUENCY INFORMATION***

---

Credit unions must include all loan types and report loan delinquency in other categories when applicable. Remember, this section is for informational purposes only. Delinquency for these loans has already been reported on the delinquency schedule by collateral type. Include delinquent loans reported by the credit union and serviced by outside processors (real estate, student loans, etc.) and loans held on the balance sheet of wholly-owned CUSOs. Exclude purchased participations not qualifying for true sales accounting under GAAP (participations with substantial recourse), as these loans will still be reported by the seller.

To complete this additional delinquency information section properly, please take note of the following examples:

A participation loan classified as a commercial loan becomes delinquent. Therefore, it must be reported on both the delinquent commercial loan and participation lines in this schedule. The same rule holds true for agricultural related participation lending. Other examples are indirect lending involving real estate or vehicle loans. Any real-estate related indirect loans would be reported on both applicable lines and, if the real estate loan is an interest only or payment option 1st mortgage loan it would also be recorded in that line item. Any delinquent unconditionally US government guaranteed SBA 7(a) and USDA/FSA secondary market loan participations should be reported only as a delinquent participation loan.

Report loans net of loan origination fees (costs), which are recognized over the life of the related loan as an adjustment to yield.

**SECTION 1 – INDIRECT LOANS**

An indirect loan is a loan made by a credit union through a vendor or other third party that facilitates the financing arrangement, including, but not limited to, auto loans, recreational vehicle loans, furniture loans, real estate loans, commercial loans, and non-federally guaranteed student loans. The credit union is responsible for making the underwriting decision, and the loan is immediately assigned to the credit union after being made.

**1. Indirect Loans**

**1a. Indirect Loans – Point of Sale Arrangement (Accounts 617B and 618B)**

Report the number and dollar amount of outstanding indirect loans made by the credit union by contracting directly with a merchant. In this case, the credit union partners with a merchant to originate loans at the point of sale. A direct agreement between an auto dealer and a credit union is an example of an indirect loan made at the point of sale.

**1b. Indirect Loans – Outsourced Lending Relationship (Accounts 617C and 618C)**

Report the number and dollar amount of outstanding indirect loans made by the credit union by contracting with a third party vendor, other than the merchant providing the product. In this case, the credit union does not directly contract with the merchant. The third party vendor facilitates loan origination. **A wholly owned CUSO is considered a third party for this reporting item.**

**1c. Total Outstanding Indirect Loans (Accounts 617A and 618A)**

This line does not require input and will automatically populate when the Call Report is submitted with the sum of items 1a and 1b for each column.

---

**Note** – Loans should be reported in Schedule A, Sections 2 through 7 without regard for the channel (direct or indirect, purchased or participation) used to obtain the loan. It is possible for a single loan to be reported in multiple sections of Schedule A, including Section 1 and Section 3.

### ***SCHEDULE A – SPECIALIZED LENDING (Continued)***

---

#### **SECTION 4 – MEMBER BUSINESS & COMMERCIAL LENDING**

This section primarily includes information concerning commercial loans as defined by NCUA regulations §723.2. The Regulatory Reporting section of this schedule concerns Member Business Loans as defined by NCUA regulations §723.8.

**Commercial loan** means any loan, line of credit, or letter of credit and any interest a credit union obtains in such loans made by another lender, to individuals, sole proprietorships, partnerships, corporations, or other business enterprises for commercial, industrial, agricultural, or professional purposes, but not for personal expenditure purposes.

Excluded from the commercial loan definition (See Section 723.2) are loans:

- Made by a corporate credit union.
- Made by a federally insured credit union to another federally insured credit union.
- Made by a federally insured credit union to a credit union service organization.
- Secured by a single 1- to 4-family residential property (whether or not it is the borrower's primary residence).
  - a. Loan secured by a single 1- to 4-family residential property means a loan that, at origination, is secured wholly or substantially by a lien on a single 1- to 4-family residential property for which the lien is central to the extension of the credit; that is, the borrower would not have been extended credit in the same amount or on terms as favorable without the lien. A loan is wholly or substantially secured by a lien on a single 1- to 4-family residential property if the estimated value of the real estate collateral at origination (after deducting any senior liens held by others) is greater than 50 percent of the principal amount of the loan.
- Fully secured by shares in the credit union making the extension of credit or deposits in other financial institutions.
- Secured by a vehicle manufactured for household use.
  - a. Loan secured by a vehicle manufactured for household use means a loan that, at origination, is secured wholly or substantially by a lien on a new and used passenger car and other vehicle such as a minivan, sport-utility vehicle, pickup truck, and similar light truck or heavy-duty truck generally manufactured for personal, family, or household use and not used as a fleet vehicle or to carry fare-paying passengers, for which the lien is central to the extension of credit. A lien is central to the extension of credit if the borrower would not have been extended credit in the same amount or on terms as favorable without the lien. A loan is wholly or substantially secured by a lien on a vehicle manufactured for household use if the estimated value of the collateral at origination (after deducting any senior liens held by others) is greater than 50 percent of the principal amount of the loan.
  - b. A fleet vehicle is defined as any vehicle that is centrally controlled and necessary for the operation of the business. The vehicle's use is for the purpose of transporting

**NCUA CALL REPORT FORM – PAGE 16**  
**SCHEDULE A – SPECIALIZED LENDING (Continued)**

persons or property for commission or hire, moving material, or used in the delivery of goods and services.

- c. In some circumstances a member may purchase a vehicle primarily for personal use and use it only for a portion of the time to generate rideshare revenue. It is incumbent upon the lending credit union to determine the intended use of a financed vehicle and the borrower’s level of dependence on ride-share revenue to repay the loan. For example, if more than 50 percent of the repayment source will come from rideshare activity and the loan or associated borrower relationship exceeds \$50,000, the vehicle loan should be treated as a commercial loan and underwritten accordingly.
- Otherwise meeting the definition of commercial loan and which, when the aggregate outstanding balances plus unfunded commitments less portions secured by shares in the credit union to a borrower or associated borrower, are equal to less than \$50,000.

The definition of commercial loan also excludes covered loans issued under the Small Business Administration’s Paycheck Protection Program, 15 U.S.C. 636(a)(36).

**Member business loan** (See Section 723.8(b)) means any commercial loan as defined in Section 723.2, except that the following commercial loans are not member business loans and are not counted toward the aggregate limit on a federally insured credit union’s member business loans:

- (1) Any loan in which a federal or state agency (or its political subdivision) fully insures repayment, fully guarantees repayment, or provides an advance commitment to purchase the loan in full; and
- (2) Any non-member commercial loan or non-member participation interest in a commercial loan made by another lender, provided the federally insured credit union acquired the non-member loans and participation interests in compliance with all relevant laws and regulations and it is not, in conjunction with one or more other credit unions, trading member business loans to circumvent the aggregate limit.
- (3) Any loan that is fully secured by a lien on a single 1- to 4-family dwelling.

The following table relates to commercial or member business loans as those terms are defined above:

<b>Type of Loan</b>	<b>Member Business Loan</b>	<b>Commercial Loan</b>
Loan secured by a single 1- to 4-family residential property (whether or not secured by a member’s primary residence)	No	No
Loan secured by more than one 1- to 4-family residential properties	Yes	Yes
Business loan secured by a vehicle manufactured for household use	Yes	No
Business loan secured by a vehicle used in a fleet or to carry fare-paying passengers	Yes	Yes

**NCUA CALL REPORT FORM – PAGE 16**  
**SCHEDULE A – SPECIALIZED LENDING (Continued)**

Type of Loan	Member Business Loan	Commercial Loan
Business loan with aggregate net member business loan balance less than \$50,000	No	No
Business loan fully secured by shares in the credit union making the extension of credit or deposits in other financial institutions	No	No
Business loan in which a federal or state agency (or its political subdivision) fully insures repayment, fully guarantees repayment, or provides an advance commitment to purchase the loan in full	No	Yes (Except PPP loans)
Non-member business loan or non-member participation interest in a commercial loan made by another lender	No	Yes

**Commercial Loan Definition Examples**

A member has \$35,000 in commercial purpose loans and the credit union grants this member an additional \$40,000 in a commercial purpose line of credit. This additional loan meets the definition of a commercial loan at origination regardless of whether or not the line is drawn on. However, the credit union should only report this additional loan as a commercial loan on the call report page 16, lines 1 and 2, if it does not have a zero balance at the end of the reporting period.

In this example, the same member subsequently paid down the \$35,000 commercial purpose loan to \$15,000 and has a \$34,000 balance on the business line of credit, making the total outstanding balance \$49,000. The aggregate outstanding balance plus unfunded commitments less any portion secured by shares in the credit union or other financial institutions is still \$55,000. The credit union is still required to list the business line of credit as a commercial loan.

If, in the case above, the member subsequently pays down the \$35,000 commercial purpose loan to \$15,000 and **the credit union reduces the line of credit** to \$34,000. The aggregate outstanding balance plus unfunded commitments less any portion secured by shares in the credit union or other financial institutions is \$49,000. The credit union will not list either of these loans as commercial loans.

If, in the case above, the member subsequently pays down the \$35,000 commercial purpose loan to \$15,000 and makes no change to the \$40,000 business line of credit, but **adds \$6,000 to a secured share account at the credit union**. The aggregate outstanding balance plus unfunded

**NCUA CALL REPORT FORM – PAGE 16**  
**SCHEDULE A – SPECIALIZED LENDING (Continued)**

commitments less any portion secured by shares in the credit union or other financial institutions is \$49,000. The credit union will not list either of these loans as commercial loans.

These examples pertain to reporting of commercial loans as defined by §723.2 on lines 1 & 2 of this schedule.

### **1. Commercial Loans**

For commercial loans to a member and participations in commercial loans to a member that qualify for true sales accounting, report the total number, outstanding balance, number of loans granted or purchased year-to-date, and amount granted or purchased year-to-date on lines a through k.

- For number of loans, report the number of commercial loans with an outstanding balance greater than zero as of the reporting period.
- For outstanding balance, report the commercial loan amount in each category excluding unfunded commitments.
- For number and amount granted or purchased year-to-date, include the total number and amount plus unfunded commitments at the time of purchase or origination. Lines of credit and credit card loans should only be counted as a new loan in the period they are granted or renewed, not each subsequent extension of the open line of credit. Credit decisions to increase a line of credit should be treated as a new loan.
- For loans held for sale, report only the number of loans granted or purchased year-to-date.

#### **a. Construction and Development Loans (Accounts 143A3, 143B3, 143C3, and 143D3)**

Report the total number, outstanding balance, number of loans granted or purchased year-to-date, and amount granted or purchased year-to-date of any commercial [construction and development loan](#) or participation interest to a member (including a non-owner occupied 1- to 4-family residential property). A loan to finance maintenance, repairs, or improvements to an existing income producing property that does not change its use or materially impact the property is **not** a construction or development loan.

#### **b. Secured by Farmland (Accounts 961A5, 042A5, 099A5, and 463A5)**

Report the number, outstanding balance, number of loans granted or purchased year-to-date, and amount granted or purchased year-to-date of any member commercial loan or participation interest secured by farmland and improvements thereon. Farmland includes all land used for agricultural purposes, such as crop and livestock production, including grazing and pasture land.

#### **c. Secured by Multifamily Residential Property (Accounts 900M, 400M, 090M, and 475M)**

Report the number, outstanding balance, number of loans granted or purchased year-to-date, and amount granted or purchased year-to-date of any loan or participation interest to a member (line 1c) for non-farm commercial-purpose residential properties. Specifically, include:

- (1) A loan secured by more than one 1- to 4-family residential property.
- (2) Loans secured by nonfarm properties with five or more dwelling units in structures (including apartment buildings and apartment hotels) used primarily to accommodate households on a more or less permanent basis.

**7. Net Member Business Loan Balance (NMBLB) (Account 400A)**

Report the net member business loan balance (NMBLB) as defined in §723.8(e) on this line. The NMBLB is used to determine compliance with statutory limits on the aggregate amount of member business loans that may be held by a federally insured credit union.

A federally insured credit union's NMBLB is determined by calculating the outstanding member business loan balance **plus any unfunded commitments** reduced by any portion of the loan that is:

- secured by shares in the credit union, or by shares or deposits in other financial institutions, or
- insured or guaranteed by any agency of the federal government, a state or any political subdivision of such state, or
- subject to an advance commitment to purchase by any agency of the Federal Government, a state or any political subdivision of such state, or
- sold as a participation interest without recourse and qualifying for true sales accounting under generally accepted accounting principles.

**Examples for reporting Business Loans on line 7.**

**SCHEDULE A – SPECIALIZED LENDING (Continued)**

If a member has \$35,000 in business purpose loans and the credit union grants this member another business purpose loan for \$40,000, the credit union should report the additional \$40,000 as a Member Business Loan.

If, in the case above, the member subsequently pays down the loans, making the aggregate total business purpose loans less than \$50,000, the credit union is not required to list any of these loans as Member Business Loans since the new aggregate loan total is now below the \$50,000 threshold in §723.8(c) of NCUA's regulations.

**RISK BASED NET WORTH (RBNW)**

**For credit unions with assets greater than \$50,000,000**

For purposes of part 702 (RBNW), the member business loan amount reported in this section differs from the NMBLB (Account 400A) and must include the portion of member business loan balances secured by the following:

- By shares in the credit union, or by shares or deposits in other financial institutions;
- Insured or guaranteed by any agency of the federal government, a state or any political subdivision of such state; or
- Subject to an advance commitment to purchase by any agency of the federal government, a state or any political subdivision of such state.

---

If the loan is partially guaranteed (such as SBA loans), the portion that is partially guaranteed is excluded from the regulatory NMBLB (Account 400A) but included for RBNW purposes (reported in Account 400).

Section 723.8(b) defines a member business loan as any commercial loan as defined in 723.2, except that the following commercial loans are not member business loans and are not counted toward the aggregate limit on a federally insured credit union's member business loans:

(1) Any loan in which a federal or state agency (or its political subdivision) fully insures repayment, fully guarantees repayment, or provides an advance commitment to purchase the loan in full.

(2) Any non-member commercial loan or non-member participation interest in a commercial loan made by another lender, provided the federally insured credit union acquired the non-member loans and participation interests in compliance with all relevant laws and regulations and it is not, in conjunction with one or more other credit unions, trading member business loans to circumvent the aggregate limit.

**SECTION 5 – TROUBLED DEBT RESTRUCTURED (TDR) LOANS**

“Troubled Debt Restructuring” is as defined in GAAP and means a restructuring in which a credit union, for economic or legal reasons related to a member borrower’s financial difficulties, grants a concession to the borrower that it would not otherwise consider. The restructuring of a loan may include, but is not necessarily limited to: (1) the transfer from the borrower to the credit union of real estate, receivables from third parties, other assets, or an equity interest in the borrower in full or partial satisfaction of the loan; (2) a modification of the loan terms, such as a reduction of the stated interest rate, principal, or accrued interest or an extension of the maturity date at a stated interest rate lower than the current market rate for new debt with similar risk; or (3) a combination of the above. A loan extended or renewed at a stated interest rate equal to the current market interest rate for new debt with similar risk is not to be reported as a TDR.

Report all loans that qualify as TDRs under GAAP in the appropriate row and column, depending on the type of loan and its accrual status. Include all TDRs that meet the GAAP criteria for TDR reporting, without the application of materiality threshold exclusions based on scoping or reporting policy elections of credit union preparers or their auditors. For the Amount Outstanding, report the total amount recorded for all TDR loans still outstanding. For loans restructured more than once, only report the outstanding balance of the most recent restructuring in this column. On the TDR Loans Approved Year-to-Date line, include all TDR loans approved year-to-date, including multiple restructurings made on the same loan in the current year.

Credit unions may not accrue interest on any loan upon which principal or interest has been in default for a period of 90 days or more, unless the loan is both “well secured” and “in the process of collection.” Additionally, loans will be placed in nonaccrual status if maintained on a Cash (or Cost Recovery) basis because of deterioration in the financial condition of the borrower, or for which payment in full of principal or interest is not expected. See NCUA regulations part741 for more information about Loan Workouts and Nonaccrual Policy, and Regulatory Reporting of TDRs.

acquisition and on a loan-by-loan basis. After determining that certain acquired loans individually meet the criteria, the credit union may evaluate whether such loans have common risk characteristics, thus permitting the aggregation of such loans into one or more pools. See GAAP or consult your independent accountant for more information on pooling PCILs.

A credit union should include post-acquisition allowances on PCILs and pools of PCILs in the overall Allowance for Loan and Lease Losses (ALLL) it reports in Schedule A. At each reporting period, if it is probable, based on current information and events, that a credit union will be unable to collect all of the cash flows expected when the PCIL and the pools of PCILs were acquired (plus additional cash flows expected to be collected arising from changes in estimate after acquisition), the PCILs and the pools of PCILs should be considered impaired for purposes of establishing an allowance, as appropriate. Again, refer to GAAP or consult your independent accountant to understand impairment measurement and reporting.

***SCHEDULE C – CREDIT UNION SERVICE ORGANIZATION***  
***(CUSO)***

---

Report the aggregate total of financial interests the credit union has in all CUSOs, regardless of whether your credit union wholly owns the CUSO, has a "controlling financial interest," has the "ability to exert significant influence" or owns only a smaller portion of the CUSO.

Answer the following questions for each group of CUSOs (aggregate) in which you have a loan or an investment:

**ACCOUNTING ISSUES**

- A. **If your credit union wholly-owns the CUSO or owns a “controlling financial interest” (assumed at ownership of 50% or more of the voting stock)**, the CUSO’s books and records should be consolidated with your credit union’s books and records (as if the two were one entity) for reporting on the Statement of Financial Condition and Statement of Income and Expense of the call report.
- B. **If your credit union has “ability to exert significant influence” over operations of the CUSO (assumed at ownership of 20% or more but less than 50% of the voting stock of the CUSO)**, the credit union’s investment in the CUSO should be reflected in its books and records using the equity method of accounting.
- C. **If your credit union owns less than 20% of the voting stock of the CUSO**, the credit union should account for its CUSO investment using the cost method of accounting.

**AGGREGATE OF FINANCIAL INTERESTS THE CREDIT UNION HAS IN CUSOs**

**a. Total Value of Investments in CUSOs(Account 851)**

Report the amount that represents the unimpaired value of the credit union’s *aggregate CUSO investments* as measured under generally accepted accounting principles on an unconsolidated basis. The amount reported should be measured either under:

- The cost method (ownership of less than 20% voting common stock), or
- The equity method (ownership of 20% or more voting common stock).

**b. Total Amount Loaned to CUSOs (Account 852)**

Report the amount of *aggregate outstanding loan balance(s)*, available line(s) of credit from the credit union, and/or guarantee(s) the credit union has made to or on behalf of the applicable CUSOs.

Report the aggregate cash outlay invested in the CUSO that is not impaired by sustained losses unrecoverable in the reasonable near term.

***SCHEDULE D – DERIVATIVE TRANSACTIONS REPORT***

---

**Column Instructions**

**Total Notional Amount** - Report the total of Notional Amounts for derivative transactions outstanding as of the end of this call report period for each derivative product category. Include transactions traded, but not yet settled as with a forward start transaction. Use the amortization schedules of amortizing Notional Amounts to determine the amount currently outstanding as of the end of the call report period. The Notional Amounts of Treasury Note Futures transactions are the underlying contract size of the futures contract purchases and sales (the face value of a 5-year U.S. Treasury Note is \$100,000 for a long position and (\$100,000) for a short position). For Account 1027, report the gross (absolute amount) amount of both long and short positions. For example, show total amount of commitment to buy/lend and commitments to sell.

**Net Fair Value Gain (Loss)** - Report the net (Gain – Loss) totals of the fair value gain and loss positions of each derivative product category and report the results (see Net Fair Value Gain(Loss)). A net gain will be represented by a *positive* value and a net loss will be represented as a *negative* value. For Account 1027C, report the net fair value of all transactions reported on this line.

**Weighted Average Years to Maturity** - Report the weighted average years remaining to maturity for each derivative product category. Express the average in number of years and round the number to two decimal places. The weighted average years remaining to maturity for the total Notional Amount of the entire derivatives portfolio reported in this Section (Total Derivatives line) should be similar (not exact given the option notional adjustment and netting of long and short futures contracts) to the number generated by the process used to measure the portfolio's compliance with the combined weighted average years remaining to maturity limit (WARMN limit applicable to FCUs only). For Account 1027Y, report the average of all long/short positions with no netting. Treat all transactions as absolute balances for the average.

**d. Other Derivatives**

**d.i. All Other Derivatives (Accounts 1027, 1027C, and 1027Y)**

Use this line to report Interest Rate Lock Commitments (IRLC) and Forward Loan Sale Commitments (FLSC) and all other derivative contracts not previously reported above. See specific reporting requirements in the Column Instructions above.
